DEMAND FOR JURY TRIAL

Plaintiffs Neo4j, Inc. (“Neo4j USA”) and Neo4j Sweden AB (“Neo4j Sweden”) hereby
 bring the present action against Defendants PureThink LLC, iGov Inc., and John Mark Suhy
 (collectively “Defendants”) and alleges as follows:

NATURE OF ACTION

1. This is an action for damages and injunctive relief arising out of Defendants’
 infringement of Neo4j USA’s registered trademarks, acts amounting to unfair competition,
 breaches of contract, invasion of privacy and defamation, as well as Defendants’ violations of the
 Digital Millennium Copyright Act.

THE PARTIES

2. Neo4j USA is a corporation organized under the laws of the State of Delaware with its principal place of business in San Mateo, California. Neo4j USA originally incorporated as Neo Technology, Inc. and then changed its name to Neo4j, Inc. in or about July 2017. Neo4j USA is the company behind the number one graph platform for connected data, marketed and sold under the trademark Neo4j®. The Neo4j® graph database platform helps organizations make sense of their data by revealing how people, processes and digital systems are interrelated. This connections-first approach powers intelligent applications tackling challenges such as artificial intelligence, fraud detection, real-time recommendations and master data.

3. Neo4j USA boasts the world's largest dedicated investment in native graph technology. It has more than 300 commercial customers, including global enterprises like Comcast, Cisco, eBay, and UBS use the Neo4j® graph database platform to create a competitive advantage from connections in their data. Neo4j USA also does substantial business with government agencies, including a number of agencies within the United States Government.

4. Neo4j Sweden is a Swedish corporation, having its principal place of business at Nordenskiöldsgatan 24, 6th Floor, 211 19 Malmö, Sweden, and is a wholly owned subsidiary of Neo4j USA. Neo4j Sweden is the owner of all copyrights related to the Neo4j® graph database platform, including the source code, and has licensed said copyrights to Neo4j USA in connection with the making, use, creation of derivative works, sale, offer to sell, importation, performance, display, reproduction and distribution of the copyrighted material, and the sublicensing of such rights in the United States.

5. Defendant PureThink LLC ("PureThink") is a limited liability company organized under the laws of the State of Delaware with a principal place of business in Reston, Virginia. PureThink purports to be a software development company and was previously an authorized Neo4j® Solution Partner. PureThink is no longer an authorized Neo4j® Solution Partner and Plaintiffs are informed and believe that PureThink is currently a shell entity maintained by the other defendants and is not currently conducting or engaged in any meaningful business activities.

6. Plaintiffs are informed and believe, and based thereon allege, that Defendant iGov Inc. (“iGov”) is a corporation organized under the laws of the Commonwealth of Virginia with a principal place of business in Reston, Virginia. Plaintiffs are informed and believe, and based thereon allege, that iGov is a software development and consulting company that focuses on large-scale graph and AI solutions, which competes with Neo4j® and its authorized Solution Partners. Plaintiffs are further informed and believe that iGov is the assignee and successor-in-interest to PureThink, or otherwise acquired substantially all of PureThink’s assets sometime in mid-2017.

7. Plaintiffs are informed and believe, and based thereon allege, that iGov also does business as GraphStack, which also competes with Neo4j® and its authorized Solution Partners.

8. Plaintiffs are informed and believe, and based thereon allege, that Defendant John Mark Suhy (“Suhy”) is an individual residing in Reston, Virginia. Plaintiffs are further informed and believe that Suhy is the sole member and manager of PureThink. Plaintiffs are also informed and believe that Suhy is the sole shareholder of iGov, as well as an officer and director of iGov.

ALTER EGO ALLEGATIONS

9. Plaintiffs are informed and believe, and based thereon allege, that at all times herein mentioned there existed a unity of interest and ownership between iGov and PureThink. Any individuality and separateness between iGov and PureThink ceased and/or never existed, and iGov is the alter ego of PureThink, in that, among other reasons, and that iGov was conceived, intended, and used by Suhy and PureThink as a device to avoid liability and that PureThink is so inadequately capitalized that, compared with the business done by iGov and the risk of loss attendant thereon, such capitalization was illusory and/or trifling.

10. Plaintiffs are informed and believe, and based thereon allege, that at all times herein mentioned that PureThink is a mere shell instrumentality maintained to protect iGov. It now carries on its business in the company name exactly as PureThink and Suhy had conducted it previous to formation of iGov and/or previous to them acquiring a controlling interest in iGov and/or previous to becoming promoters thereof, exercised complete control and dominance of the business done by PureThink and now iGov to such an extent that any individuality or

1 separateness of PureThink and iGov at all times herein mentioned did not and do not exist.

2 11. For example, PureThink and iGov originally shared the same principal place of
3 business at 1902 Campus Commons Drive, Suite 101, Reston, VA 20191. Likewise, PureThink
4 and iGov still share the same customer support number, 1-855-979-7771.

5 12. PureThink and iGov's websites are also virtually identical and contain much of
6 the same verbiage, such as their core philosophies and results:

7 To help you succeed, we believe in working closely and
8 cooperatively with our clients. Our goal is to ensure everyone on
9 the same page regarding project status, methods and tasks. Our
10 approach is to develop software according to an Agile methodology
11 which means we emphasize people and interaction rather than
12 complicated processes and endless documentation.

13 * * *

14 Our mission is to bring the greatest value to our clients by
15 leveraging our considerable depth of resources and experience. We
16 align our approach to the specific business drivers of each business
17 we work with whom we tailor solutions to best suit different
18 cultural environments, industries, and market conditions. We focus
19 on business strategy implementation, not business strategy
20 development.

21 Compare <https://purethink.com/about.html> and <https://igovsol.com/about.html>.

22 13. Plaintiffs are informed and believe, and based thereon allege, that other
23 components from PureThink's website were ported over to iGov's website.

24 14. Plaintiffs are informed and believe, and based thereon allege, that adherence to
25 the fiction of the separate existence of iGov as an entity distinct from PureThink would permit an
26 abuse of the privilege of formation and would sanction fraud and/or promote injustice, and that
27 among other circumstances, Suhy and PureThink caused monetary and other assets to be
28 withdrawn and/or transferred from PureThink without any consideration, or with insufficient
consideration, to iGov, all for the purposes of avoiding liability and preventing attachment and
execution by creditors, including Plaintiffs, thereby rendering PureThink insolvent and unable to
fully perform its obligations; and at all times herein mentioned, was not so capitalized, solvent
and unable to fully perform any obligations undertaken by as set further herein.

JURISDICTION AND VENUE

15. The jurisdiction of this Court over the subject matter of this action is predicated, pursuant to 28 U.S.C. § 1331, on the fact that Plaintiffs present a civil action arising under the Federal Trademark Act (the “Lanham Act”), 15 U.S.C. § 1051 et seq., and the Digital Millennium Copyright Act (DMCA), 17 U.S.C. § 1201 et seq. The remainder of Plaintiffs’ claims are subject to the jurisdiction of this Court, pursuant to 28 U.S.C. §§ 1338(b) and 1367, because the claims are joined with one or more substantial and related claims under the Lanham Act.

16. This action arises out of wrongful acts committed by Defendants in California and this District, which acts subject Defendants to the personal jurisdiction of this Court. Plaintiffs are informed and believe, and based thereon allege that Defendants specifically target consumers and derive substantial revenue within California and this District, and expect their actions to have consequences within California and this District. For all of these reasons, personal jurisdiction over Defendants exists.

17. Venue is proper in the Northern District of California pursuant to 28 U.S.C. § 1391 as Defendants engage in infringing activities, defamation and acts of unfair competition in this District. In addition, Defendants have on a continual basis committed the wrongful acts alleged below within this District, in business interactions purposefully elicited by Defendants with or directed to residents of the District, all of which has harmed and continues to harm Plaintiffs within this District.

18. At least one defendant, PureThink, entered into a Solution Partner Agreement with Neo4j USA (“the Partner Agreement”), which is subject to the claims asserted herein and contains a provision wherein it effectively agreed and consented to jurisdiction within California and specifically a court within the Northern District of California.

INTRADISTRICT ASSIGNMENT

19. Pursuant to Northern District Local Rule 3-2(c) and Northern District General Order 44, venue in this action is proper in any Courthouse in this District because this case is brought under the Lanham Act and involves intellectual property rights.

THE NEO4J® BRAND

20. Plaintiffs' business was formed after its founders encountered performance problems with relational database management systems (RDMS). Plaintiffs then developed a graph database management system developed under the Neo4j® brand and quickly became the industry leader in graph database solutions and software.

21. In conjunction with Plaintiffs' business, Neo4j USA filed for and obtained several federally registered trademarks. Specifically, Neo4j USA is the owner of U.S. Trademark Registration No. 4,784,280 for the word mark "NEO4J" covering the following goods and services (the "NEO4J® Mark"):

- (IC 009) Computer programs for managing, storing, and accessing data from a database, analyzing data in computer databases for business purposes, processing in the nature of updating data in computer databases, and visualizing in the nature of creating graphs from data stored in databases; computer programs for storing, managing, and querying data from databases on computers, computer networks, and global computer networks.
- (IC 035) Consulting services and advice in the field of updating and maintenance of data in computer databases.
- (IC 041) Educational services, namely, conducting training classes, certification training, workshops, tutorial sessions, and online classes in the fields of designing computer databases and updating and maintenance of data in computer databases, and distributing course materials in connection therewith; providing training services in the fields of designing computer databases and updating and maintenance of data in computer databases, and distributing course materials in connection therewith.
- (IC 042) Providing a web site featuring technology that enables end users to store, manage, and query data from databases on computers, computer networks, and global computer networks; cloud computing featuring software for use in managing, storing, and accessing data from a database, analyzing

data in computer databases for business purposes, processing in the nature of updating data in computer databases, and visualizing in the nature of creating graphs from data stored in databases; Technical support services, namely, installation, administration, and troubleshooting of database applications; Computer services, namely, providing consultation services and advice in the fields of designing computer databases.

- (IC 045) Consulting services and advice in the field of maintaining the security and integrity of databases.

22. Plaintiffs first used the NEO4J® Mark in June 2006 and first used that mark in commerce in May 2007, and have continually used the NEO4J® Mark for the above goods and services at least as early as the filing date of the NEO4J® Mark. A true and correct copy of the NEO4J® Mark, as seen in U.S. Trademark Registration No. 4,784,280, is attached hereto as **Exhibit 1.**

23. Neo4j USA owns valid and subsisting federal statutory and common law rights in the NEO4J® Mark, and as a result of its considerable efforts and investment in the brand to identify its goods and services and Plaintiffs as their source, the NEO4J® Mark has become widely known and is closely identified with Plaintiffs and represents its substantial, valuable goodwill.

THE EVOLUTION OF PLAINTIFFS' LICENSING MODEL FOR NEO4J® GRAPH DATABASE PLATFORM SOFTWARE

24. Prior to November 2018, Plaintiffs' business model was to offer a free open source version of the Neo4j® graph database platform, its primary software offering, NEO4J® Community Edition ("Community Edition"), under the GNU General Public License version 3 ("GPLv3") license. This edition is limited in its feature set and offers no support. Users requiring additional features for more advanced commercial operation, together with support, licensed use of the Neo4j® graph database platform through NEO4J® Enterprise Edition ("NEO4J® EE") under commercial terms. NEO4J® EE is a full superset of Community Edition
///

1 of the Neo4j® graph database platform, containing significant additional functionality intended
2 for commercial use.

3 25. Plaintiffs originally offered NEO4J® EE under both a paid-for commercial
4 license and the free GNU Affero General Public License, version 3 (“AGPLv3”). A commercial
5 license to NEO4J® EE entitled the purchaser to use it in a proprietary setting with industry
6 standard terms, receive support or professional services from Neo4j USA, and the right to receive
7 software updates, which included feature updates, bug fixes and assistance. Purchasing a
8 commercial license at a fair price supported the continued development and improvement of
9 NEO4J® EE and the Neo4j® graph database platform, including the Community Edition
10 software.

11 26. In May 2018, Plaintiffs released NEO4J® EE version 3.4, which they continued
12 to offer under a proprietary commercial license. However, Neo4j Sweden replaced the AGPLv3
13 with a stricter license, which included the terms of the AGPLv3 with additional restrictions
14 provided by the Commons Clause (“Neo4j Sweden Software License”). This new license, while
15 allowing code to be publicly viewable and used within a certain limited scope of usage, is
16 generally recognized in the software industry not to qualify as open source, as it prohibits all
17 third-party resale and services activity. Neo4j Sweden licensed NEO4J® EE version 3.4 under
18 the Neo4j Sweden Software License to prevent third parties, such as Defendants, from monetizing
19 such software while not contributing back to the companies who are producers of the software.

20 27. In November 2018, Plaintiffs officially released version 3.5 of NEO4J® EE
21 solely under a commercial license, while they continued to offer the Community Edition under an
22 open source license. This meant that Plaintiffs were no longer publishing source code for
23 NEO4J® EE under an open source license. This was done to simplify its licensing model, as well
24 as prevent bad actors from willfully misrepresenting the Neo4j Sweden Software License and
25 profiting by providing commercial support services in closed, proprietary projects.

26 28. All versions of Neo4j® graph platform software are subject to Neo4j USA’s
27 Trademark Policy found on its website, which states in relevant part:

28 ///

1 Although some Neo4j projects may be available under free and open
 2 licenses, those licenses cover copyright only and do not include any
 3 express or implied right to use our trademarks. Neo4j does not allow third
 4 parties to use its trademarks without a written agreement or express
 5 permission. Thus, Neo4j projects that are available under open source
 6 licenses may be copied, modified, or sold by third parties, but they cannot
 7 be branded or marketed with Neo4j trademarks in the absence of a
 8 trademark license.

9 While open-source licenses allow modification of copyrighted software
 10 and distribution in original or modified form, such distribution could be
 11 misleading if distributed under the same name. This could cause
 12 confusion among consumers of the software as to source. They may
 13 mistakenly believe they are receiving software that is produced or
 14 supported by Neo4j. This Policy describes the circumstances under which
 15 you may use our trademarks, regardless of the type of license you may
 16 have from Neo4j.

17 * * *

18 Any use of the Marks must be licensed and comply with these guidelines.
 19 Whenever you use one of the Marks, you must always do so in a way that
 20 does not mislead anyone, either directly or by omission, about exactly
 21 what they are getting and from whom. For example, you cannot say you
 22 are distributing the Neo4j® software when you're distributing a modified
 23 version of it, because people would be confused when they are not getting
 24 the same features and functionality they would get if they downloaded the
 25 software directly from us. You also cannot distribute Neo4j® software
 26 using the Marks if you do not have a license from us, because that would
 27 imply that your distribution comes from or is supported by Neo4j. You
 28 cannot use our Marks on your website in a way that suggests that your
 website is an official website or that we endorse your website, unless
 permitted in a written agreement with us.

A true and correct copy of Neo4j USA's Trademark Guidelines (<https://neo4j.com/trademark-policy>) is attached hereto as **Exhibit 2**.

NEO4J'S AGREEMENT WITH PURETHINK

29. On or about September 30, 2014, Neo4j USA and PureThink entered into the
 Partner Agreement. Under the Partner Agreement, PureThink agreed to provide first and second
 line support to end-users of NEO4J® EE software in exchange for annual partner program fees
 and shared revenue as specified in the Partner Agreement.

30. Under Section 4.1 of the Partner Agreement, Neo4j USA provided PureThink
 with a non-exclusive, non-transferable limited license during the term of that agreement to, inter
 alia, "use [Neo4j USA's] trademarks solely to market and promote the Products in accordance
 with the terms of [the Partner Agreement]." Section 4.1 also incorporated Neo4j's trademark

1 policies as additional limitations on Defendants' use of the NEO4J® mark and making
 2 representations about NEO4J® EE and NEO4J® Community Edition software products, which at
 3 the time provided in relevant part that:

4 Neo Technology software, which is created and/or distributed by
 5 Neo Technology and thus properly bears the Trademarks, is the
 6 software in the exact binary form that it is distributed by Neo
 7 Technology, without modification of any kind. To the extent any
 8 authorized modifications are made to the software, such modified
 9 software should no longer bear the Trademarks. The public has a
 10 right to know when it is receiving a genuine Neo Technology
 11 product that is quality assured by Neo Technology.

12 You must not use any Trademark in a web page title, titletag,
 13 metatag, or other manner with the intent or the likely effect of
 14 influencing search engine rankings or results listings.

15 31. In or about March 2017, Plaintiffs learned that Defendants had encouraged at
 16 least one government agency to use "free open source NEO4J® EE under the AGPL" and pay
 17 PureThink for consulting and support instead of obtaining a commercial license. Plaintiffs also
 18 learned that Defendants used a server that belonged to another company to compile that open
 19 source software in an attempt to avoid the restrictions imposed by the Partner Agreement on
 20 PureThink. Defendants even admitted that they intended to form a new company that would
 21 market and offer consulting services for users of NEO4J® open source products.

22 32. Defendants' words and actions constituted a material breach of the express terms
 23 of the Partner Agreement that precluded PureThink from modifying open source Neo4j software
 24 and providing related support services. The fact that PureThink led this government agency to
 25 believe that it was getting an authentic version of NEO4J® EE was also a breach of the express
 26 terms of Section 4.1. When PureThink recompiled NEO4J® EE, it was actually creating software
 27 that is not of the same quality as if were compiled by Neo4j, which uses tens of thousands of
 28 integrated test scripts. Defendants' introduced their own modifications in recompiling the
 29 software, thereby misleading that government agency and potentially damaging the NEO4J®
 30 Mark and associated goodwill.

31 33. As a result, on or about May 30, 2017, Neo4j USA provided PureThink with a
 32 formal notification of PureThink's material breaches of the Partner Agreement and a demand to

1 cure such breaches pursuant to Section 7.2 thereof. PureThink's material breaches included
 2 compiling, using and distributing NEO4J® open source products, and performing services on, as
 3 well as continuing to perform services on, NEO4J® open source products in violation of Section
 4 4.3 of the Partner Agreement. A true and correct copy of this May 30, 2017 notice is attached
 5 hereto as **Exhibit 3**.

6 34. On or about June 30, 2017, Neo4j USA provided PureThink with 90-days written
 7 notice pursuant to Sections 7.1 and 7.2 of its election to terminate the Partner Agreement and not
 8 to renew the Partner Agreement for a renewal term that would commence on September 30, 2017.

9 35. On or about July 11, 2017, Neo4j USA provided PureThink with written notice
 10 that the Partner Agreement was terminated pursuant to Section 7.2 thereof due to PureThink's
 11 failure to timely cure the material breaches set forth in the May 30, 2017 letter ("Breach Notice").
 12 A true and correct copy of this letter is attached hereto as **Exhibit 4**.

13 36. Neo4j USA also reminded PureThink that several provisions in the Partner
 14 Agreement survived termination pursuant to Section 7.4 thereof. This includes, Section 7.3,
 15 which provides that upon such termination

16 all rights and licenses of Partner hereunder will terminate and
 17 Partner shall cease all communications with End Users regarding
 18 the Products; and (b) each party ... will cease using any trademarks,
 service marks and other designations of the other party....

19 37. Section 10 also survived termination and provides that "either party may assign
 20 this Agreement without the other party's consent to a parent or subsidiary of such party or in the
 21 case of a merger or sale of all or substantially all of its assets or stock."

22 38. In light of these continuing obligations, Neo4j USA provided notice that it was
 23 terminating PureThink's rights and licenses under the Partner Agreement. Neo4j USA demanded
 24 that PureThink "cease using [Neo4j USA's] trademarks, service marks, and other designations...
 25 and remove from PureThink's website(s) and marketing materials, [Neo4j USA's] trademarks
 26 and tradenames, including, without limitation, Neo4j." Neo4j USA further advised that
 27 PureThink had "no rights to use [Neo4j USA's] trademarks or tradenames and continued use of
 28 such trademarks and/or tradenames will constitute trademark infringement." *See* Exhibit 4.

DEFENDANTS' MISINFORMATION CAMPAIGN REGARDING NEO4J'S
SOFTWARE AND INFRINGEMENT OF THE NEO4J® MARK

39. Since Neo4j USA terminated the Partner Agreement, Defendants have engaged in acts that amount to the breach thereof and constitute violations of the Lanham Act. These acts include using the NEO4J® Mark in an improper manner that falsely suggests the Neo4j USA's authorization and/or sponsorship of Defendants' products and services.

40. Plaintiffs are informed and believed, and based thereon allege that Suhy incorporated iGov on or about June 23, 2017 in response to the May 30th notice of breach, and in anticipation of Neo4j USA's termination of the Partner Agreement, and to avoid the aforementioned continuing, agreed-upon restrictions placed on PureThink thereunder and the potential liability for breaching such restrictions.

41. As of November 2017, iGov's website admitted this was Defendants' intent:

PureThink, the company who created, managed and sold Neo4j Government Edition to all US Federal agencies has ceased their partnership with Neo Technology and Neo4j Government Edition has been retired.

The principle behind PureThink and the Government Package has created a new corporate entity called iGov Inc, which is not a Neo4j Solution Partner. Because iGov Inc is not a solution partner, it can offer packages at great cost savings to US Government Agencies as it has no restrictions on working with Neo4j Enterprise open source licenses!

iGov Inc and the new Government Package for Neo4j allows agencies to spend their money on developing innovative solutions around Neo4j, not paying for unnecessary production support before they even have a solution built that could be in production.

A true and correct copy of this archived webpage is attached hereto as **Exhibit 5**.

42. However, Plaintiffs are informed and believed, and based thereon alleges that PureThink assigned the Partner Agreement as part of the transfer and/or sale of substantially all of its assets to iGov in conjunction with Suhy's incorporation of iGov. Alternatively, iGov assumed PureThink's obligations under the Partner Agreement as its alter ego. As a result, iGov became subject to the aforementioned contractual restrictions relating to the use of the NEO4J® Mark and any resulting liability for the breach of such provisions in the Partner Agreement.

43. Defendants deceive prospective customers about the source of legitimate NEO4J® products by marketing software modified by Defendants as genuine a NEO4J® EE product via iGov's website. In particular, iGov's website claims that end-users did not need to purchase a commercial license for NEO4J® EE and obtain support from Neo4j or its Solution Partners. Rather, consumers can download iGov's unauthorized recompiled and modified version of NEO4J® EE (confusingly called "Neo4j Enterprise" by iGov) because in Defendants' unqualified legal opinion:

Neo4j Enterprise can be used for free under the [AGPL]. [] There are no hidden or limiting terms beyond the standard [AGPL]. With Neo4j Enterprise under its free open source [AGPL] license, you simply don't get production email and phone support from Neo4j Inc. You can get a much cheaper support contract through iGov Inc for a fraction of the cost to support your production.

A true and correct copy of the aforementioned portions of iGov's website as they appeared on October 2, 2019 and July 27, 2020 are attached hereto as **Exhibit 6** and **Exhibit 7**.

44. Via iGov's website, Defendants published step-by-step instructions on how to circumvent the commercial license requirement for NEO4J® EE version 3.3, and the security features released as closed-source along with it. A true and correct copy of a blog published by Defendants containing these instructions is attached hereto as **Exhibit 8**.

45. When Neo4j released NEO4J® EE version 3.4 under the Neo4j Sweden Software License, Defendants continued to take advantage of the fact that most of this source code was available on GitHub (an open source software hosting site). This allowed them to copy the code while ignoring the restrictions imposed by the Neo4j Sweden Software License. Defendants also stripped out valid legal notices and license terms in NEO4J® source code files.

46. Defendants even went as far as to giving unsolicited answers to public posts on open community websites, such as www.stackoverflow.com, to spread further misinformation concerning the nature of Plaintiffs' licensing model and promote Defendants' own unauthorized hybrid offerings as identical to those originating from Neo4j. True and correct copies of examples of Defendants' posts on www.stackoverflow.com are attached hereto as **Exhibits 9-10**.

///

47. Defendants also mislead consumers by claiming iGov’s haphazard “Neo4j Enterprise” builds were equivalent to corresponding versions of NEO4J® EE, which Defendants knew were not. They also ignored that Section 4.1 of the Partner Agreement incorporated Neo4j USA’s trademark policies and expressly prohibited Defendants from using the NEO4J® Mark in conjunction with recompiled and modified versions of NEO4J® EE.

48. Defendants further breached Section 4.1 of the Partner Agreement and violated the Lanham Act by including the link titled “Graph Packages” on the home page of iGov’s website directs to the domain “<https://igovsol.com/neo4j.html>” (emphasis added). A true and correct copy of a screenshot iGov’s homepage and a print out of this home page is attached hereto as **Exhibit 11** and **Exhibit 12**, respectively as they appeared in October 2019. The linked webpage at <https://igovsol.com/neo4j.html> as of October 2, 2019 is attached hereto as **Exhibit 13**.

49. Even after this was identified as infringing conduct in the first and second amended complaints filed in this Action, Defendants have steadfastly refused to abate such clear infringement of the NEO4J® Mark. A true and correct copy of a printout of iGov’s homepage as of July 27, 2020 is attached hereto **Exhibit 14** and true and correct copies print outs of the linked webpage at <https://igovsol.com/neo4j.html> as of July 27, 2020 are attached hereto as **Exhibit 14 and Exhibit 15**.

50. Use of NEO4J® in the domain is unnecessary in this instance as any number of generic terms could have been used in place of NEO4J®. The use of NEO4J® as a part of a domain is for a purpose other than to reference Neo4j USA or its NEO4J®-branded products and services, and is in fact misleading to confuse the source or origin of its own offerings to those of Neo4j USA.

51. The top of iGov website at <https://igovsol.com/neo4j.html> prominently displays “Request Procurement Document Package” link that has “mailto:neo4j@igovsol.com” embedded in the html and creates an email addressed to “neo4j@igovsol.com” upon activation. *See Exhibits 15-16*. This link is a clear attempt by Defendants to mislead and confuse consumers that it is somehow an authorized source of NEO4J® software and/or support packages for that software.

///

1 The “Downloads” page on iGov’s website (<https://igovsol.com/downloads.html>) also provides the
 2 same contact email address, neo4j@igovsol.com. *See* Exhibits 6-7.

3 52. The usage of “neo4j” as an email alias constitutes an unauthorized use of the
 4 NEO4J® Mark, especially since more common descriptive or non-infringing terms such as
 5 “support@igovsol.com” and “sales@igovsol.com” should be readily available. In fact, iGov uses
 6 info@igovsol.com elsewhere on its website as an email address for potential customers to inquire
 7 about iGov’s services and products.

8 53. iGov’s website at <https://igovsol.com/neo4j.html> also contains false and
 9 misleading statements concerning the source of at least one NEO4J® software product: “Our
 10 team is the same team that created Neo4j Enterprise Government Edition. Further, we are the
 11 same team that sold and supported every US Federal Government procurement of Neo4j
 12 Enterprise Government Edition up until its retirement in July 2017.” *See* Exhibits 13, 15-16.
 13 This statement is untrue because neither PureThink nor Suhy created an authorized NEO4J®
 14 software product entitled “Neo4j Enterprise Government Edition.” Instead, Defendants are
 15 improperly rebranding Plaintiff’s Neo4j Enterprise Edition without the authorization of Plaintiff

16 54. In a further attempt to mislead potential purchasers of Neo4j® software and
 17 services, iGov claims to have commercial pricing information for Neo4J® software and services
 18 on its website. *See* Exhibits 11-12, 14. iGov’s maintenance of this pricing information and
 19 Suhy’s repeated public references thereto is misleading to potential purchasers of Neo4j®-
 20 branded software because it is outdated and was obtained from a United States General Services
 21 Administration (GSA) pricing schedule from 2018 for NEO4J® EE and was subject to specific
 22 GSA terms and conditions. As a result, it does not accurately reflect Neo4j USA’s current pricing
 23 structure for NEO4J® EE 4.0.x commercial licenses.

24 **DEFENDANTS ENGAGE IN UNFAIR COMPETITION BY FALSELY PROMOTING**
 25 **THIRD PARTY SOFTWARE AS BEING IDENTICAL TO NEO4J® EE**

26 55. Defendants remained undeterred in their efforts tarnish the NEO4J® brand and
 27 mislead consumers. In or about September 2018, Defendants began to promote a third-party

28 ///

graph database software, Open Native Graph DB (ONgDB), which they describe on iGov's website as "a non-restrictive fork of Neo4j, the world's leading Graph Database."

56. Defendants deceptively market ONgDB via iGov's website as the equivalent of Neo4j's current version of NEO4J® EE which is only available via a commercial license:

ONgDB (AKA ONgDB Enterprise) 3.5.5 is Neo4j 3.5.5 Core + the enterprise features Neo4j Inc removed from the code base as of v3.5. All ONgDB and Neo4j Enterprise AGPL distributions can be used in production, in closed source projects, and with no limitations on # of cores or causal cluster instances. ONgDB is a drop in replacement for the Neo4j Community and Enterprise branded distributions.

See Exhibits 11-12; *see also* Exhibits 6-7, 14. Defendants further misleadingly state on iGov's website that "ONgDB Enterprise is free and open source. You have all the feature parity of Neo4j Enterprise commercial licenses, but without limits on usage, cluster instances, cores, etc." *See* Exhibit 13, 15-16. These and similar statements made by Defendants are misleading because ONgDB is not entirely based on open source version of the Neo4j® graph database platform as it continues to claim. Plaintiffs are informed and believe that Defendants knew full well that this was untrue since ONgDB contained additional closed-source components that required a commercial license from Neo4j Sweden AB or one of its affiliates.

57. iGov's website also contains a "Neo4j Enterprise Open Source Frequently Asked Questions" section, which deceives consumers into downloading "Neo4j Enterprise from our the Neo4j Inc. [sic] distribution site, or from our Amazon Gov Cloud mirror. [Download Neo4j Enterprise](#)" rather than download an official trial version of NEO4J® EE from Plaintiffs. *See* Exhibits 6-7. This link misleadingly redirects consumers to the top of iGov's download page with links to download ONgDB rather than to Neo4j USA's distribution site. *See id.* Thus, the use of "Neo4j Enterprise" and corresponding bold texted link is a clear attempt to mislead and confuse consumers regarding ONgDB being the purported equivalent of NEO4J® EE.

58. Plaintiffs are informed and believe, and based thereon allege that ONgDB is compiled from a patchwork of source code from older versions of official Neo4j® graph database platform software, and includes "glue" source code authored by Graph Foundation Inc. ("GFI")

///

1 and Suhy, while mischaracterized by Defendants as identical to Plaintiffs' commercial-only
2 releases of NEO4J® EE.

3 59. Defendants are thus promoting software that is not of the same quality as if were
4 compiled by Plaintiffs. This is because ONgDB software was not entirely created using
5 Plaintiffs' build infrastructure, which carries out tens of thousands of functional, performance,
6 load, stress, and other tests to ensure quality and consistency. ONgDB also does not include
7 critical fixes or other ongoing improvements made by Plaintiffs to NEO4J® EE. Further, because
8 Graph Foundation and Suhy introduced their own modifications in recompiling ONgDB from
9 various older iterations of NEO4J® software, this increases the potential for instability and
10 compatibility issues with ONgDB. As a result, Defendants are misleading consumers into
11 believing they are downloading an exact copy of Plaintiffs' current commercial-only releases of
12 NEO4J® EE, which in actuality is an inferior product that is not a true "drop in" replacement.

13 60. Defendants promoted the misleadingly matched version numbers of ONgDB to
14 the equivalent genuine NEO4J® EE version, while falsely maintaining ONgDB is identical to
15 Neo4j USA's official offerings except offered under an open source license. The few statements
16 by Defendants that disclaim a relationship or affiliation with Neo4j USA are undermined by their
17 misinformation campaign to confuse customers as to the nature of its "forked" version of
18 ONgDB, and failure to properly display and use proper trademark notices after the NEO4J®
19 Mark, which they often display as "Neo4j," "Neo4j Enterprise," "neo4j project" and "Neo4j open
20 source," furthering their attempts to detract the distinctiveness and significance of the NEO4J®
21 Mark. Defendants' prominent display of the NEO4J® Mark in a repetitive, albeit inconsistent
22 manner and without proper trademark usage and notices, the historical use of various iterations of
23 "Neo4j" and interchangeable use of "Neo4j Enterprise" with "ONgDB Enterprise" on their
24 website, without proper trademark notices, is a clear attempt to confuse customers as to the
25 source, origin or affiliate of the parties' respective offerings.

26 61. The foregoing improper use of the NEO4J® Mark in conjunction with
27 Defendants' promotion of unauthorized software violates Neo4j USA's Trademark Guidelines
28 and Section 4.1 of the Partner Agreement. For example, these guidelines prohibit Defendants

1 from using the NEO4J® Mark in conjunction with modified open source software based on the
 2 Neo4j® graph database platform, including forks thereof, and suggesting endorsement by Neo4J
 3 USA. As a result, Defendants create consumer confusion that they and GFI are offering a current
 4 authorized version of NEO4J® EE or that ONgDB is otherwise endorsed by Neo4j USA.

5 62. Defendants do not provide their own release notes in relation to their promotion
 6 of ONgDB. Instead, Defendants use html links on iGov’s website to redirect consumers to Neo4j
 7 USA’s official release notes (<https://neo4j.com/release-notes/neo4j-3-5-5/>) and “What’s New”
 8 page (<https://neo4j.com/whats-new-in-neo4j/>):

9 ONGDB ENTERPRISE 3.5.5

 11 cores, or production usage.

12 May 2019 Neo4j’s Release Notes | Neo4j’s Whats New Page

13 See Exhibits 6-7. Thus, further promoting the false equivalency between ONgDB and the latest
 14 version of NEO4J® EE.

15 63. Defendants have used a second website, www.graphstack.io, to further promote
 16 the false equivalency between ONgDB and the latest version of NEO4J® EE. Defendants openly
 17 admitted that “iGov Inc is the company behind GraphStack” and that “iGov Inc offers production
 18 support packages for Neo4j / ONgDB Enterprise open source distributions for US government
 19 agencies.” Defendants’ GraphStack website contains misleading statements concerning ONgDB
 20 similar to those on iGov’s website, including that ONgDB “is a non-restrictive fork of Neo4j” and
 21 “a drop in replacement for any Neo4j Enterprise (or community) distribution of the same version
 22 number.” A true and correct copy of the homepage for GraphStack’s website as it existed on
 23 October 2, 2019 is attached hereto as **Exhibit 13**.

24 64. GraphStack website improperly used html links to redirect consumers to Neo4j
 25 USA’s official release notes (<https://neo4j.com/release-notes/neo4j-3-5-5/>) and “What’s New”
 26 page (<https://neo4j.com/whats-new-in-neo4j/>) in conjunction with encouraging consumers to
 27 download ONgDB as an alleged “[d]rop in replacement for Neo4j Core and Enterprise 3.5.3.”
 28 See Exhibit 17. As indicated on Neo4j USA’s website (<https://neo4j.com/docs/license/>), the

1 foregoing and other documentation provided by Neo4j USA is copyrighted and subject to the
 2 Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International Public License,
 3 which expressly prohibits the use of such documents for commercial purposes, requires
 4 attribution to the copyright holder and notice of modifications.

5 65. The latest iteration of Defendants' GraphStack website is now touting that
 6 "ONgDB Enterprise 4.0.x (Neo4j Core 4.0.x + Enterprise Code) is coming soon" and that
 7 "ONgDB 4.0 adds in the enterprise features removed from Neo4j core - including multi-database,
 8 clustering, security, and more." Plaintiffs are informed and believe, and based thereon allege that
 9 Defendants are adding features to ONgDB found in NEO4J® EE 4.0 that are based on Plaintiffs'
 10 source code that has never been released under the AGPL or any other open source license, and as
 11 a result would render this statement false and misleading. A true and correct copy of the
 12 homepage for GraphStack's website as of July 15, 2020 is attached hereto as **Exhibit 18**.

13 66. Defendants impermissibly use the NEO4J® Mark as a hashtag ("#Neo4j") to
 14 represent ONgDB software and mislead consumers by retweeting posts on Twitter made by GFI.
 15 Use of the NEO4J® Mark as a hashtag ("#Neo4j") in this manner falsely implies sponsorship or
 16 endorsement by Neo4j USA as there are other descriptive or generic words that Defendants and
 17 GFI may use to describe ONgDB graph software without reference to the NEO4J® mark in this
 18 manner. Defendants and GFI use the NEO4J® Mark to refer to their own ONgDB software,
 19 rather than Plaintiffs' software, and use more of the NEO4J® Mark than is reasonably necessary
 20 to identify its product further exacerbating the confusion. A true and correct copy of examples
 21 of Defendants' republication of GFI's tweets improperly using "#Neo4j" is attached hereto as
 22 **Exhibit 19**.

23 ///

24 ///

25 ///

26 ///

27 ///

28 ///

67. Defendants also use Twitter to spread misinformation concerning NEO4J® EE and unfairly compete with Plaintiffs. For example, Suhy has falsely suggested to potential customers that ONgDB contains the same source code as commercial-only licensed NEO4J® EE:

A true and correct copy of these Tweets are attached hereto as **Exhibit 20** and **Exhibit 21**.

68. Defendants continue to mislead consumers by claiming that ONgDB is properly licensed under AGPLv3 as a free and open source equivalent of official NEO4J® EE that is now only available via a commercial license from Plaintiffs. Such statements made by Defendants are false and misleading because Defendants and GFI never created or developed a true open source

1 fork based on an open source version of the Neo4j® graph database platform. Rather, Defendants
 2 knowingly copied source code from the Neo4j® graph database platform that is subject to Neo4j
 3 Sweden Software License. Suhy has been a major contributor to the development of ONgDB,
 4 and as detailed below, Suhy intentionally stripped out valid legal notices and license terms
 5 governing that source code under an erroneous view of the AGPLv3 and Neo4j Sweden's right as
 6 the copyright holder to grant a license to its software as it sees fit.

7 **DEFENDANTS' MISCONDUCT IS LIKELY TO CAUSE CONSUMER CONFUSION**
 8 **AND HAS RESULTED IN ACTUAL CONSUMER CONFUSION**

9 69. Defendants' actions described above constitute unauthorized use of the NEO4J®
 10 Mark in commerce in connection with the distribution, offering, or promotion of its "Neo4j
 11 Enterprise" and ONgDB software is likely to cause consumer confusion. Such actions were made
 12 with an intent to deceive consumers, which interferes with Neo4j's ability to differentiate its
 13 NEO4J® offerings from those of these unauthorized, third-party compiled offerings.

14 70. Plaintiffs are informed and believe, and based thereon allege that Defendants
 15 actions described above have caused actual consumer confusion. For example, users have
 16 expressed uncertainty and confusion over license obligations, as well as encountered
 17 compatibility issues resulting from downloading ONgDB:

18 Do the terms of use for "neo4j Desktop" apply to the ONGDB
 19 server which I downloaded under AGPLv3 license? I read the
 20 Desktop terms carefully and they refer everywhere to "neo4j
 21 Desktop software". Has anybody encountered this issue? I am
 22 feeling really stupid for not thinking this through before
 23 downloading the Desktop Software, especially as database
 authentication keeps failing. Before I spend any more time
 troubleshooting, could someone indicate any features of Desktop
 that are really worth it (other than UI)? I am planning production,
 so the license is important to me.

24 A true and correct copy of the foregoing post on the Neo4j Online Community is attached hereto
 25 as **Exhibit 22**.

26 71. Plaintiffs are informed and believe, and based thereon allege that consumers that
 27 have downloaded ONgDB rather than officially licensed Neo4j® graph database platform
 28 software have experienced issues that Plaintiffs would have been able to address for licensed

1 users with authorized support services and/or may not have occurred at all had such users
 2 downloaded officially licensed Neo4j® graph database platform software rather than ONgDB.
 3 True and correct copies of printouts from third party websites www.stackoverflow.com
 4 illustrating these issues are attached hereto as **Exhibits 23-26**.

5 72. Consumers that have downloaded ONgDB have expressed uncertainty over
 6 Defendants' unauthorized modification to the proprietary Neo4j Sweden Software License. *See*,
 7 *e.g.*, Exhibit 22. Defendants continue to extenuate such issues and cause consumer confusion by
 8 falsely equating ONgDB with commercially licensed NEO4J® EE. *See, e.g.*, Exhibits 11-16.

9 73. Defendants take full advantage of their deceptive marketing of ONgDB as being
 10 the equivalent of the same numbered version of NEO4J® EE that was only available via a
 11 commercial license by inducing potential customers to use the money they would normally pay
 12 Plaintiffs for a commercial license for NEO4J® EE and instead download from GFI a purportedly
 13 equivalent version of ONgDB for free and use those funds to obtain support and development
 14 services from ARI and GraphGrid in closed, proprietary projects. Thus, Defendants are illicitly
 15 profiting from their misrepresentations about the validity of the Neo4j Sweden Software License
 16 and their wrongful removal of the restrictions imposed by that license.

17 74. Plaintiffs are informed and believe, and based thereon allege that Defendants
 18 continues to extenuate such issues and causes consumer confusion by engaging in the above-
 19 described unauthorized use of the NEO4J® Mark and making the foregoing false and misleading
 20 statements in connection with the distribution, offering, and promotion of its "Neo4j Enterprise"
 21 and ONgDB software.

22 75. Plaintiffs are informed and believe, and based thereon allege that Suhy was the
 23 moving, active conscious force behind the foregoing acts of infringement and false advertising by
 24 iGov and PureThink. Suhy either personally took part in the foregoing infringing activities or
 25 specifically directed, controlled, ratified PureThink and iGov's employees to engage in such
 26 infringing activities.

27 **DEFENDANT SUHY'S VIOLATIONS OF THE DMCA**

28 76. Plaintiffs include copyright management information within the electronic source

code files for NEO4J® EE, including information identifying the copyright owner as Neo4j Sweden, the title of the work, licensing information, terms and conditions for use of the copyrighted work, and other conspicuous displays identifying the owner or title of these copyrighted works, including such use of “Neo4j” in the source code and NOTICE headers with terms and conditions.

77. Plaintiffs are informed and believe, and based thereon that with Graph Foundation’s approval and encouragement, Suhy replicated the NEO4j® EE source code files and removed and/or altered (a) the existing Neo4j Sweden Software License; (b) copyright owner information; and (c) other terms and conditions for the use of the copyrighted work from at least 28 separate files from NEO4j® EE. Suhy replaced the Neo4j Sweden Software License with a generic version of the APGLv3 thereby removing the additional license imposed by the Neo4j Sweden Software License to prevent commercial abuse and other copyright management information, and republished these source code files on Graph Foundation’s Github repository for ONgDB. The following is an example of the changes (deletions in red, additions in green) Suhy made within the NEO4J® EE code entitled “enterprise/neo4j-enterprise/License.txt”:

Suhy made virtually identical changes to the other 27 files. A true and correct print out of the

1 listing of these source code files on Graph Foundation's Github repository for ONgDB is attached
2 hereto as **Exhibit 27**.

3 78. Plaintiffs are informed and believe, and based thereon allege that Suhy was acting
4 and continues to act in concert with GFI and for their collective benefit in improperly modifying
5 Plaintiffs' source code to be used in ONgDB. A true and correct copy of a tweet from GFI's co-
6 founder and CEO, Bradley Nussbaum, is attached hereto as **Exhibit 28**.

7 **DEFENDANTS' OTHER MISCONDUCT**

8 79. Between 2015 and 2018, employees of Neo4j USA engaged in numerous
9 telephone, cellular and VOIP communications with Suhy, via Skype and/or GoToMeeting via his
10 accounts at jmsuhy@purethink.com. These calls related to the Parties' business activities.

11 80. In the fall of 2016, Suhy informed Neo4j USA's Director of Global Alliances
12 (who resides in California) that Suhy had recorded prior telephone conversations with him and
13 other employees of Neo4j USA. He then demanded that Suhy immediately cease recording the
14 conversation and confirmed that Suhy and PureThink did not have permission to record that
15 conversation or any other conversation with Neo4j USA's employees.

16 81. In or about February 7, 2018, Suhy admitted in an email exchange with Neo4j
17 USA's Vice President of Products that he recorded multiple calls with Neo4j USA's Director of
18 Global Alliances and Neo4j USA's federal sales representative.

19 82. On or about May 25, 2018, approximately mid-way through a 28-minute cellular
20 phone call, Suhy informed Neo4j USA's Vice President of Products that he was recording that
21 call, as well as had recorded all of Suhy's prior conversations with him "as a matter of course."
22 Neither Neo4j USA's Vice President of Products nor any other employee of Neo4j USA
23 consented to the recording of the aforementioned communications

24 **DEFENDANTS CAMPAIGN TO DEFAME PLAINTIFFS**

25 83. Defendants have repeatedly made public false and defamatory statements about
26 Plaintiffs on social media, including Twitter, in order to damage Plaintiffs' reputations. Between
27 January 2020 and May 2020, Suhy repeated made posts on Twitter that contained unsubstantiated
28 false accusations of fraud and criminal conduct about Plaintiffs. Examples include:

John Mark Suhy @jmsuhy · Mar 13

Replying to @_msw_ @jim_dowling and 2 others

Regarding @neo4j - they are in a precarious position right now. There is an ongoing legal case exposing some bad behavior. They may lose their trademark and could possibly face class action lawsuits and fraud charges around their open source EE licensing deception.

Replying to @bwmerk1 and @amyhodler

Ironically, I have uncovered fraud by @neo4j Inc using neo4j tech. Not public yet, but It will be public soon from an upcoming court case. Not a 'fraud ring', but fraud nonetheless. It would have taken ages to piece this together without Neo4j and a few other pieces of tech.

True and correct copies of Suhy's tweets are attached hereto as **Exhibit 29** and **Exhibit 30**.

84. During this same time period, Defendants also have harassed Plaintiffs' employees on Twitter with their false and defamatory statements in an effort to intimidate them. In January 2020, Suhy targeted Neo4j USA's Chief Marketing officer, Lance Walter, with the following unsolicited tweets falsely accusing Plaintiffs of engaging criminal and fraudulent acts:

8 True and correct copies of the foregoing tweets is attached hereto as **Exhibit 31** and **Exhibit 32**.

9 85. In March and April 2020, Suhy targeted Peter Neubauer, former Vice President of
10 Neo4j Community, falsely claiming that Neo4j USA defrauded its investors, as well as would
11 face criminal charges and class action lawsuits:

True and correct copies of the foregoing tweets is attached hereto as **Exhibit 33**.

86. On or about May 27, 2020, Plaintiffs sent Defendants a letter requesting that they immediately take down the foregoing false and defamatory statements from Twitter. Plaintiffs also demanded that Defendants not engage in any further attempts to damage Plaintiffs' reputation in the marketplace with unsubstantiated false accusations of fraud and criminal conduct, as well as improperly litigate the parties' dispute outside of court and taint the jury pool. A true and correct copy of the foregoing letter is attached hereto as **Exhibit 34**.

87. Defendants never responded to Plaintiffs' May 27, 2020 letter nor removed the foregoing false and defamatory statements from Twitter as requested. Instead, Defendants continued to engage in their campaign to unfairly compete with and defame Plaintiffs by specifically targeting Plaintiffs' actual and potential investors.

88. On July 3, 2020, Suhy posted a tweet falsely accusing Neo4j USA's Chief Operations Officer, Lars Nordwall, of defrauding Plaintiffs' investors among other false and defamatory statements about Plaintiffs:

1 A true and correct copy of the foregoing tweet is attached hereto as **Exhibit 35**.

2 89. Minutes later, Suhy posted a tweet responding to a November 1, 2018 tweet by
3 Mr. Nordwall, which he directed at two of Plaintiffs' investors, One Peak Partners and Morgan
4 Stanley Expansion Capital, again falsely accusing Plaintiffs of attempting to criminally defraud
5 their investors:

23 A true and correct copy of the foregoing tweet is attached hereto as **Exhibit 36**.

24 90. There was no legitimate reason for Suhy to dig up a tweets from November 2018
25 and making false statements that they engaging in criminal fraud directed at Neo4j's investors,
26 other than to maliciously harm Plaintiffs' reputation and ability to receive future funding.

27 91. On July 6, 2020, Plaintiffs sent an email again warning Defendants that they were
28 not entitled to make false and defamatory statements regarding Neo4j and engage in defamation

1 as a means of self-help in both the lawsuit and the marketplace. A true and correct copy of the
2 foregoing email is attached hereto as **Exhibit 37**.

3 92. Defendants have not limited such misconduct to Twitter. Plaintiffs are informed
4 and believe, and based thereon allege that Defendants have made similar false and defamatory
5 statements directly to Plaintiffs' actual and potential customers. For example, on February 22,
6 2020, Mr. Suhy sent an email to a Neo4j employee and copied several employees of a Neo4j USA
7 customer wherein he stated:

8 you may not be aware of this yet but there is an upcoming court case in the
9 US, which is going to expose Neo4j's deception on this topic, and it is
10 starting to look like it may lead to possible criminal fraud charges and class
11 action lawsuits against Neo4j Inc.

12 Despite being relevant and responsive to discovery propounded by Plaintiffs in this lawsuit,
13 Defendants did not produce this email. As result, there is reason to believe that Defendants have
14 made similar false accusations of criminal fraud to other actual and potential customers of
15 Plaintiffs as part of their broader scheme to harm Plaintiffs' reputation and business.

16 93. Under the Partner Agreement, PureThink agreed to maintain the confidentiality of
17 Neo4j USA's confidential and proprietary information. In particular, Section 3 of the Partner
18 Agreement restricted the use and disclosure of confidential information obtained under the terms
19 thereof for a period of five (5) years from receipt, and the confidentiality obligations survived the
20 termination per Section 7 of this agreement. By definition, this included the confidential pricing
21 for various licenses to Neo4j® software and services, as well as the compensation structure for
22 Solution Partners such as PureThink that is set forth in the Partner Agreement. Hence, it states
23 "NEO TECHNOLOGY INC. CONFIDENTIAL" at the bottom of each page of the Partner
24 Agreement.

25 94. When Neo4j USA initiated this lawsuit, it did not attach the Partner Agreement to
26 the original complaint or any subsequent iterations due to the fact that it contained the
27 compensation structure for PureThink among other things.

28 95. In complete disregard of their obligations under the confidentiality provisions,
iGov and PureThink attached the Partner Agreement to their original counterclaim (Dkt. No. 22)

and did not file it under seal. Plaintiffs are informed and believe that Defendants publicly filed the Partner Agreement in the lawsuit in an effort to tarnish Plaintiffs' goodwill. Suhy has since posted entry on iGov's blog that includes two links to the entire Partner Agreement and has also redirected users on Twitter to this blog entry in conjunction with making the aforementioned false and defamatory statements regarding Plaintiffs:

A true and correct copy of this April 2, 2020 tweet by Suhy is attached hereto as **Exhibit 38**.

96. On July 18, 2020, Suhy sent another tweet further suggested he would breach by the confidentiality provisions of the Partner Agreement:

A true and correct copy of this July 18, 2020 tweet by Suhy is attached hereto as **Exhibit 39**.

Suhy posted a similar tweet on July 29, 2020, a true and correct copy of which is attached hereto as **Exhibit 40**.

97. In addition, Suhy's repeated references to confidential information in his tweets suggests that he may be improperly using confidential materials that were provided to him by Plaintiffs subject to the confidentially provision in the Neo4j Solution Partner Agreement. Suhy's tweets further suggest that Defendants are abusing the access they were granted under the Protective Order and using materials designated as "CONFIDENTIAL" thereunder for improper purposes outside the scope of this litigation

98. On August 26, 2020, Suhy posted two additional tweets on his Twitter feed that are false and defamatory:

A true and correct copy of these tweets are attached hereto as **Exhibit 41**.

FIRST CAUSE OF ACTION

TRADEMARK INFRINGEMENT – 15 U.S.C. § 1114

(By Neo4j USA Against All Defendants)

99. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1 through 97 of this Complaint as though fully set forth herein.

100. Plaintiffs have been actively using the NEO4J® Mark in interstate commerce

1 since at least as early as 2007. Plaintiffs' graph database solutions and software and related
2 supported services offered under the NEO4J® Mark has enjoyed and continues to enjoy extensive
3 recognition among customers, reviewers and industry professionals in the marketplace.

4 101. Neo4j USA currently offers, and Plaintiffs have a long and established history of
5 offering graph database solutions and software and related services, both directly and through
6 authorized Neo4j® Solution Partners under the distinctive NEO4J® Mark. Through favorable
7 acceptance and recognition by customers, reviewers and industry professionals, the NEO4J®
8 Mark has come to be associated in the public with Neo4j USA, have become an asset of
9 substantial value to Neo4j USA, and a symbol of its high quality, industry leading graph database
10 solutions and software and related services, as garnered substantial goodwill.

11 102. Plaintiffs' graph database solutions and software and related services offered
12 under the NEO4J® Mark are advertised via print publications, over the Internet through Neo4j
13 USA's website and through third-party websites and blogs, paid advertising on LinkedIn, Twitter,
14 Facebook, and elsewhere, as well as via mobile applications and publications, physical billboards,
15 and signage at both company-branded and third-party events.

16 103. Neo4j USA has expended considerable time, money and effort in advertising and
17 promoting its graph database solutions and software and related support services under the
18 NEO4J® Mark among consumers and authorized Neo4j® Solution Partners. Consequently,
19 Neo4j USA has developed substantial and exclusive goodwill and reputation in connection with
20 the NEO4J® Mark for its graph database solutions and software and related support services.

21 104. As a result of these expenditures, combined with substantial sales of Plaintiffs'
22 graph database solutions and software and related support services under the NEO4J® Mark, the
23 relevant consuming public and likely customers have come to recognize the NEO4J® Mark as
24 favorably distinguishing Neo4j USA's graph database solutions and software and related support
25 services from those of its competitors.

26 105. Due to this widespread public use and recognition, the NEO4J® Mark has
27 become an asset of significant value and goodwill, and a successful indicator of the source of
28 Neo4j USA's graph database solutions and software and related support services.

1 106. Defendants' software and related support services directly compete with Neo4j
2 USA's graph database solutions and software and related support services offered and sold under
3 Neo4j USA's NEO4J® Mark. The customers and users, and potential users and consumers of
4 Neo4j USA's graph database solutions and software and related support services offered and sold
5 under Neo4j USA's NEO4J® Mark are identical to the user and customers and potential users
6 and customers of the graph database solutions and software and related support services offered
7 by Defendants.

8 107. Defendants have had and have actual knowledge of Neo4j USA's rights in the
9 NEO4J® Mark and are willfully infringing and intentionally adopted and used this mark in
10 commerce without Neo4j USA's consent in connection with the sale, offering for sale,
11 distribution and advertising of competing graph database solutions and software and related
12 support services. The software and related support services promoted by Defendants have been
13 disseminated and distributed through various means including, without limitation, sales and
14 solicitations through PureThink, iGov and GraphStack's Internet interactive websites and other
15 third party websites, including within this District.

16 108. Defendants' willful, intentional and unauthorized use of the NEO4J® Mark in
17 conjunction with the sale and advertising of Defendants and third parties' unauthorized database
18 solutions and software and related support services is likely to cause and is causing confusion,
19 mistake, and deception as to the origin and quality of Neo4j USA's graph database solutions and
20 software and related support services.

21 109. Defendants' activities constitute willful trademark infringement under Section 32
22 of the Lanham Act, 15 U.S.C. § 1114.

23 110. The injuries and damages sustained by Neo4j USA have been directly and
24 proximately caused by Defendants' wrongful sale, offering for sale, distribution, or advertising of
25 Defendants and third parties' software products and services in conjunction with their
26 unauthorized use of the NEO4J® Mark. Specifically, Neo4j USA has been damaged in an
27 amount according to proof at trial, but in no event less than approximately \$3.1 million, plus
28 interest thereon under applicable law.

111. As iGov and Suhy's acts are likely to continue, the award of money damages alone will not adequately compensate Neo4j USA. By their unauthorized use of the NEO4J® Mark and refusal to cease such use, Defendants have caused, and will continue to cause irreparable harm, damages and injury to Neo4j USA. Neo4j USA's injuries will continue unless restrained by order of this Court. Accordingly, Neo4j USA is entitled to preliminary and permanent injunctive relief.

SECOND CAUSE OF ACTION

FALSE DESIGNATION OF ORIGIN AND FALSE ADVERTISING – 15 U.S.C. § 1125(a)

(By Neo4j USA Against All Defendants)

112. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1 through 110 of this Complaint as though fully set forth herein.

113. Defendants' actions constitute a false designation of origin and false advertising under 15 U.S.C. § 1125(a), which is likely to cause confusion, mistake or to deceive and has confused and deceived consumers into believing that Defendants' goods and services are affiliated with, sponsored by, or somehow connected with Neo4j USA and/or Neo4j USA's NEO4J® Mark, and, as a consequence, are likely to divert customers away from Neo4j USA and/or its authorized NEO4J® Solution Partners.

114. Defendants' unlawful activities reflect adversely on Neo4j USA because it has no control over the nature and quality of the services and products advertised and sold by iGov, and as the believed source of origin, Neo4j USA's efforts to continue to protect its reputation for high quality graph database solutions and software and related support services sold under the NEO4J® Mark will be hampered, resulting in the loss of goodwill and sales, to the irreparable harm of Neo4j USA.

115. Further, any failure, neglect, or default by Defendants in using the NEO4J® Mark in offering its and third parties' unauthorized software products will continue to reflect adversely on Neo4j USA as the believed source of origin thereof, hampering efforts by Neo4j USA to continue to protect its outstanding reputation for high quality graph database solutions and software and software-related services, resulting in loss of customers and partners, as well as the

1 loss of goodwill and sales, all to the irreparable harm of Neo4j USA.

2 116. The actions of Defendants as alleged herein constitute intentional, willful,
3 knowing and deliberate false designation of origin and false advertising pursuant to 15 U.S.C. §
4 1125(a).

5 117. Defendants' willful, intentional and unauthorized use of the NEO4J® Mark is
6 likely to cause and is causing confusion, mistake, and deception as to the origin and quality of
7 Defendants' software products and software-related services.

8 118. The injuries and damages sustained by Neo4j USA have been directly and
9 proximately caused by Defendants' wrongful and misleading sale, offering for sale, distribution,
10 or advertising of Defendants and third parties' unauthorized software products and software-
11 related services. Specifically, Neo4j USA has been damaged in an amount according to proof at
12 trial, but in no event less than the approximate amount of approximately \$3.1 million, plus
13 interest thereon under applicable law.

14 119. As Defendants' acts are likely to continue, the award of money damages alone
15 will not adequately compensate Neo4j USA. By their false designation of origin and false
16 advertising, and refusal to cease the use of the NEO4J® Mark, Defendants have caused, and will
17 continue to cause irreparable harm, damages and injury to Neo4j USA. Neo4j USA's injuries
18 will continue unless restrained by order of this Court. Accordingly, Neo4j USA is entitled to
19 preliminary and permanent injunctive relief.

20 **THIRD CAUSE OF ACTION**

21 **UNFAIR COMPETITION – 15 U.S.C. § 1125(a)**

22 **(By Neo4j USA Against All Defendants)**

23 120. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1
24 through 118 of this Complaint as though fully set forth herein.

25 121. Defendants' conduct described and alleged in this complaint constitutes unfair
26 competition and fraudulent business practices in violation of 15 U.S.C. § 1125. Defendants are
27 deliberately, intentionally and unlawfully exploiting the NEO4J® Mark and consumer goodwill
28 for their benefit.

122. Defendants' use of the NEO4J® Mark in conjunction with their business constitutes the use of a word, term, name, or any combination thereof, that is likely to cause confusion, mistake, or deception as to the affiliation, connection, origin, sponsorship, approval and/or association of Defendants and their software products and software-related services with Neo4j USA, within the meaning of 15 U.S.C. § 1125(a)(1).

123. In addition, Defendants' use of the NEO4J® Mark constitutes a commercial use that causes actual and/or likely dilution of the distinctive quality of the NEO4J® Mark by lessening the capacity of the NEO4J® Mark to identify Neo4j USA and distinguish its software products and software-related services. Defendants knowingly traded on Neo4j USA's reputation after the NEO4J® Mark had become well known.

124. As a direct and proximate result of Defendants' acts and misconduct, Plaintiffs are informed and believe, and thereon allege, that customers and prospective customers have been confused and misled, deceived and mistaken as to the source or sponsorship of Defendants and third parties' unauthorized software products and software-related services, and have been deterred from purchasing Neo4j USA's graph database solutions and software and related support services, in disruption of Neo4j USA's business activities.

125. Neo4j USA has therefore been damaged and is likely to suffer further damage in an amount to be proven at trial, but in excess of the minimum jurisdiction of this Court. In particular, Neo4j USA is entitled to, without limitation, damages for its loss of sales and goodwill, as well as recovery of any and all profit derived by Defendants through their wrongful acts in an amount according to proof at trial, but in no event less than the approximate amount of \$3.1 million, plus interest thereon under applicable law.

126. As Defendants' wrongful acts are likely to continue, the award of money damages alone will not adequately compensate Neo4j USA. By their use of the NEO4J® Mark, Defendants have caused, and will continue to cause irreparable harm, damages and injury to Neo4j USA. Neo4j USA's injuries will continue unless restrained by order of this Court. Accordingly, Neo4j USA is entitled to preliminary and permanent injunctive relief.

FOURTH CAUSE OF ACTION

UNFAIR COMPETITION – Cal. Bus. Prof. Code §§ 17200 et seq.

(By Neo4j USA Against All Defendants’)

127. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1 through 125 of this Complaint as though fully set forth herein.

128. Plaintiffs are informed and believe, and thereon allege, that Defendants’ conduct business within California, including, without limitation, the advertising and distribution of Defendants and third parties’ unauthorized software products and services through its headquarters and over iGov’s interactive internet website.

129. Defendants’ and third parties’ unauthorized software products conduct described and alleged in this Complaint constitutes unfair, unlawful, and fraudulent business practices in violation of California Business & Professions Code §§ 17200 et seq.

130. Defendants’ knew or reasonably should have known that use of NEO4J® Mark deceives and/or confuses customers into believing that Defendants and third parties’ unauthorized software products and software related services are produced, endorsed, affiliated and/or associated with Neo4j USA.

131. Plaintiffs are informed and believe, and thereon allege, that Defendants’ misuse of the NEO4J® Mark was an intentional and deliberate attempt to trade on the Neo4j USA’s goodwill.

132. As a direct and proximate result of Defendants’ wrongful acts, Plaintiffs are informed and believe, and thereon allege, that customers and prospective customers have been confused and misled, deceived and mistaken as to the source or sponsorship of Defendants and third parties’ unauthorized software products and services, and have been deterred from purchasing and/or using Neo4j USA’s NEO4J® software and services, in disruption of Neo4j USA’s business activities.

///

///

///

133. Neo4j USA has therefore been damaged and is likely to suffer further damage in an amount to be proven at trial, and is entitled to the remedies available under Business and Professions Code § 17200 et seq., including but not limited to injunctive relief and restoration of money or property acquired by means of Defendants' wrongful acts.

FIFTH CAUSE OF ACTION

BREACH OF CONTRACT

(By Neo4j USA Against Defendant PureThink LLC and iGov Inc.)

134. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1 through 132 of this complaint as though fully set forth herein.

135. The Partner Agreement constitutes a valid and enforceable contract between Neo4j USA and PureThink.

136. Under Section 4.1 of the Partner Agreement, Neo4j USA provided PureThink with a non-exclusive, non-transferable limited license during the term of the Partner Agreement to, *inter alia*, use the NEO4J® Mark solely to market and promote Neo4j USAs' products.

137. Section 7.3 of the Partner Agreement further provided that all rights and licenses to Neo4j USA's software products and the NEO4J® Mark would terminate upon the expiration or termination of the Partner Agreement, and upon such an event, PureThink agreed to "cease all communications with End Users regarding the Products" and "cease using any trademarks, service marks and other designations of Neo4j USAs" including the NEO4J® Mark.

138. Under Section 4.3.2 of the Partner Agreement, PureThink further agreed and understood that during the term of the Partner Agreement, it would not "develop, market, distribute or offer any services related to any [NEO4J®] Community Edition Products, derivative works of such products, or any [PureThink] software code made to work with [NEO4J®] Community Edition Products (including, without limitation, hosting services, training, technical support, configuration and customization services, etc.)." It was PureThink's acts and omissions in breach of this section occurring prior to July 11, 2017, among other things, that led to Neo4j's termination of the Partner Agreement on that date.

///

1 139. Under Section 3 of the Partner Agreement, PureThink agreed “that it acquires
2 only the right to use [Neo4j USA’s] Confidential Information under the terms and conditions of
3 this Agreement and does not acquire any rights of ownership or title in [Neo4j USA’s]
4 Confidential Information.” PureThink further agreed that it would “hold in confidence any
5 Confidential Information received by it from [Neo4j USA] and will protect the confidentiality of
6 such with the same degree of care that it exercises with respect to its own information of like
7 import, but in no event less than reasonable care, for a period of five (5) years from receipt.”

8 140. The foregoing provisions were intended and necessary to protect Neo4j USA’s
9 legitimate business interests in its goodwill and intellectual property and survived termination
10 pursuant to Section 7.4 of the Partner Agreement.

11 141. Neo4j USA is informed and believed, and based thereon alleges that iGov is
12 bound by the aforementioned restrictions and liable for breaches thereof as PureThink’s
13 successor-in-interest, assign, acquirer of substantially all of PureThink’s assets as contemplated
14 by Section 10 of the Partner Agreement and/or as PureThink’s alter ego.

15 142. Neo4j USA has performed every promise and condition required to be performed
16 by it pursuant to the Partner Agreement except any which were or would be excused or prevented
17 by the breaches of PureThink and iGov as set forth herein.

18 143. PureThink and iGov have willfully and with conscious disregard for the
19 contractual obligations owed to Neo4j USA have breached and continue to breach Sections 3.1,
20 4.1 and 7.3 of the Partner Agreement by (a) their unauthorized use of the NEO4J® Mark in
21 conjunction with the sale and advertising of graph database solutions and software and related
22 support services; (b) deceptively offering support and development services related to NEO4J®
23 Community Edition Products and unauthorized derivative works of such products; (c) deceptively
24 developing, marketing, and distributing software purporting to be the equivalent of NEO4J®
25 products; and (d) using Neo4j USA’s confidential information to harm NEO4J’s goodwill. Their
26 breaches of the Partner Agreement also include falsely suggesting Neo4j USA’s authorization
27 and/or sponsorship of PureThink and iGov’s products and services, as well as misleading
28 consumers regarding their prior contributions to NEO4J®-branded products.

144. The misconduct and breaches alleged above also constitute violations of the covenant of good faith and fair dealing implied in the Partner Agreement, because those activities injured and frustrated the right of Neo4j USA to the benefits of the Partner Agreement.

145. As a direct and proximate result of PureThink and iGov's breaches of contract, Neo4j USA has been damaged in an amount according to proof at trial, but in no event less than the approximate amount of \$3.1 million, plus interest thereon under applicable law.

146. As a direct and proximate result of PureThink and iGov's breaches of contract, Neo4j USAs has suffered irreparable injury and harm and will continue to suffer such injury and harm unless and until PureThink and iGov are enjoined from further misuse and infringement of the NEO4J® Mark.

147. PureThink and iGov have derived, received, and will continue to derive and receive from the aforementioned breaches of contract, gains, profits and advantages, many of which are not presently known to Neo4j USA. Unless restrained and enjoined by the Court, PureThink and iGov will continue to breach the Partner Agreement. Neo4j USA therefore entitled to injunctive relief or specific performance, as well as damages as provided by law and the Partner Agreement.

SIXTH CAUSE OF ACTION

INVASION OF PRIVACY – CAL. PENAL CODE §§ 632, 637.2

(By Neo4j USA Against PureThink LLC and John Mark Suhy)

148. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1 through 146 of this complaint as though fully set forth herein.

149. Unbeknownst to Neo4j USA and its employees, between 2015 and 2018, PureThink and Suhy intentionally recorded their conversations and audible communications transmitted over various electronic and telephonic devices with employees of Neo4j USA by using an electronic device. Neo4j USA's employees utilized cellular devices to communicate with PureThink and Suhy for one or more of these communications.

150. Neo4j USA and its employees were located and/or resided in California at the time that these communications occurred.

1 151. These communications related sensitive aspects of the Neo4j USA's business,
2 including confidential customer information, private financial information, and other confidential
3 business information. Neo4j USA and its employees thus had a reasonable expectation that these
4 communications were not being recorded by PureThink and Suhy.

5 152. At no time did Neo4j USA or its employees consent to the recording of any of
6 their communications with PureThink and Suhy. Rather, in the Fall of 2016, Neo4j USA
7 instructed PureThink and Suhy not to record any of their calls and confirmed that PureThink and
8 Suhy that did not have permission record any audible communications with Neo4j USA.
9 Notwithstanding these demands, PureThink and Suhy continued to secretly record their calls with
10 Neo4j USA for the next two years without first obtaining Neo4j USA's consent.

11 153. Neo4j USA is informed and believed, and based thereon on allege that PureThink
12 and Suhy intentionally recording such conversations and audible communications with the intent
13 to disclose those recordings to third parties and/or the general public that would not otherwise be
14 privy to or have a right to listen to such communications.

15 154. Neo4j USA is informed and believed, and based thereon on allege that PureThink
16 and Suhy intentionally recording such conversations and audible communications with the intent
17 to cause harm to Neo4j USA.

18 155. Neo4j USA seeks statutory damages in the amount \$5,000 per incident of
19 unauthorized recording as authorized by Cal. Penal Code § 637.2.

20 156. As PureThink and Suhy's wrongful acts are likely to continue due to their
21 unauthorized possession of the aforementioned recordings, the award of money damages alone
22 will not adequately compensate Neo4j USA. By possessing aforementioned recordings,
23 PureThink and Suhy have caused, and will continue to cause irreparable harm, damages and
24 injury to Neo4j USA. Neo4j USA's injuries will continue unless restrained by order of this
25 Court. Accordingly, Neo4j USA is entitled to preliminary and permanent injunctive relief.

SEVENTH CAUSE OF ACTION

DEFAMATION – Cal. Civ. Code §§ 45, 45a

(By Plaintiffs Against All Defendants)

157. Plaintiffs incorporate and reallege the allegations set forth in paragraphs 1 through 155 of this Complaint as though fully set forth herein.

158. Suhy published the above-alleged defamatory statements that Plaintiffs have engaged in fraud and deception with their customers, and engaged in fraudulent and criminal conduct were made to third parties such as Plaintiffs' actual and potential customers and actual and potential investors. Suhy made such defamatory statements in his individual capacity, as well as an agent and employee of iGov and PureThink and was acting within the course and scope of such agency in making the above-alleged defamatory statements.

159. It was reasonably understood by those third parties who read Defendants' defamatory statements that they were about Plaintiffs.

160. On their face of the foregoing defamatory statements, it was reasonably understood Defendants meant to convey that Plaintiffs have engaged in fraud and deception with their customers, engaged in fraudulent and criminal conduct, and are dishonest and should not be dealt with or be trusted.

161. Defendants' defamatory statements were false, unprivileged and had a natural tendency to injure Plaintiffs.

162. Defendants intentionally made the defamatory statements with malice with the intent to harm Defendants' business, trade and reputation, with the knowledge that such statements were false or had serious doubts about the truth of the statements.

163. Defendants' defamatory statements have cast Plaintiffs in a negative and false light, exposed Plaintiffs to hatred, contempt, ridicule and obloquy, as well as making it odious in the estimation of those with whom Plaintiffs have business dealing or connections, and have caused harm to Plaintiffs' business, trade and reputation.

164. As a result, Plaintiffs have suffered damages in an amount to be proven at trial according to proof, including but not limited to, harm to their business reputation, exposure to

1 contempt, ridicule, and obloquy, and bringing Plaintiffs' business into public contempt, and of
 2 making it odious in the estimation of those with whom they have business dealing or connections.

3 165. In making the defamatory statement identified above, Defendants acted with
 4 malice, oppression, or fraud, and is thus responsible for punitive damages in an amount to be
 5 proven at trial according to proof.

6 **EIGHTH CAUSE OF ACTION**

7 **UNAUTHORIZED DISTRIBUTION OF ALTERED COPYRIGHT MANAGEMENT** 8 **INFORMATION – 17 U.S.C. § 1202(b)**

9 **(By Plaintiffs Against Defendants)**

10 166. Plaintiff incorporates and realleges the allegations set forth in paragraphs 1
 11 through 164 of this complaint as though fully set forth herein.

12 167. Neo4j Sweden is the exclusive owner of the copyrights associated with all
 13 versions of NEO4J® graphing database software, including the versions of NEO4J® EE
 14 referenced herein (collectively “NEO4J® graph database platform”). Neo4j Sweden is the
 15 exclusive owner of the rights to license, copy or distribute and license the use of copies of the
 16 NEO4J® graph database platform.

17 168. The NEO4J® graph database platform is published and distributed with copyright
 18 management information that includes the copyright owner's name, the title of the work, terms
 19 and conditions for use of the work, and other identifying information about the copyright owner
 20 (“NEO4J® CMI”). Various identifications in the source code for the NEO4J® graph database
 21 platform reference Neo4j Sweden, including use of “Neo4j” in library file structures – this and
 22 other conspicuous displays of the NEO4J® CMI, which constitute copyright management
 23 information pursuant to 17 U.S.C. § 1202(b).

24 169. Acting his individual capacity, as well as an agent of iGov, PureThink and GFI,
 25 Suhy intentionally copied source code files for the NEO4J® graph database platform containing
 26 NEO4J® CMI, and then intentionally altered and removed NEO4J® CMI, including licensing
 27 terms and conditions, in at least 28 separate source code files for the NEO4J® graph database
 28 platform. Defendants publicly distribute these altered source code files as part of the Graph

Foundation's ONgDB software on iGov's website and Graph Foundation's Github repository with the intent and knowledge that the NEO4J® CMI had been intentionally removed therefrom.

170. Defendants intentionally removed the NEO4J® CMI and distributed altered versions of NEO4J® graph database platform with the knowledge that doing so would induce, enable, facilitate, or conceal an infringement of Neo4j Sweden's rights under the Copyright Act.

171. Defendants have knowingly distributed and continue to distribute altered versions of NEO4J® graph database platform with the knowledge that doing so would induce, enable, facilitate, or conceal an infringement of Neo4j Sweden's rights under the Copyright Act.

172. Defendants engaged in these activities without the consent or authorization of Neo4j Sweden.

173. Plaintiffs have been injured as a result of these violations of 17 U.S.C. § 1202(b) and is entitled to injunctive relief, damages, costs, and attorneys' fees. Pursuant to 17 U.S.C. § 1203(c)(3), Neo4j Sweden may also elect to recover statutory damages for not less than \$2,500 or more than \$25,000 for each violation of 17 U.S.C. § 1202(b).

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs pray for judgment against Defendants as follows:

1. For compensatory damages in an amount to be proven at trial, in amount no less than \$3,100,000, and that the amount of damages for infringement of Neo4j USA's NEO4J® Mark be increased by a sum not exceeding three times the amount thereof as provided by 15 U.S.C. § 1117;

2. For an award of all profits heretofore realized by Defendants during their infringing use of the NEO4J® Mark pursuant to 15 U.S.C. § 1117 and other applicable laws and statutes;

3. For reasonably attorneys' fees and costs pursuant to 15 U.S.C. § 1117 and/or 18 U.S.C. § 2520(b)(3);

4. Compensatory damages according to proof for Defendants' breaches of contract, but in amount no less than \$3,100,000;

5. Disgorgement and restitution of Defendants' ill-gotten gains;

6. For a preliminary and permanent injunction restraining Defendant, its officers, agents, servants, employees, attorneys, confederates, and all persons acting for, with, by through, under, or in active concert with them temporarily, preliminarily, and permanently enjoined and restrained from use of the NEO4J® Mark;

7. For injunctive relief, costs, and attorneys' fees pursuant to 17 U.S.C. § 1203(b);

8. For actual damages, or in the alternative statutory damages for not less than \$2,500 or more than \$25,000 for each violation of 17 U.S.C. § 1202(b), pursuant to 17 U.S.C. § 1203(c);

9. For damages suffered as a result of Defendants' defamatory statements and an award of punitive damages in amounts to be proven at trial;

10. For interest as allowed by law;

11. For cost of suit herein incurred; and

12. For such other and further relief as this Court may deem proper.

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

Requirements in the First Ten Years*
What and When to File:

First Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

Second Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.*
See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*
What and When to File:

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.

[Terms](#)[California Privacy Rights](#)[Privacy Policy](#)

Trademark Policy

This document outlines the policy for allowable uses of trademarks owned by Neo4j, Inc. and its subsidiaries ("Neo4j") by other parties.

Neo4j owns all Neo4j-related trademarks, service marks, and logos on behalf of our communities and the names of all Neo4j® projects are trademarks of Neo4j.

The role of trademarks is to provide assurance about the quality of the products or services with which the trademark is associated. Neo4j has established this Policy to encourage others to make accurate, non-confusing use of the Neo4j trademarks, while also ensuring that those trademarks maintain their distinctiveness and strength as reliable indicators of the source and quality of Neo4j products and services. Although some Neo4j projects may be available under free and open licenses, those licenses cover copyright only and do not include any express or implied right to use our trademarks. Neo4j does not allow third parties to use its trademarks without a written agreement or express permission. Thus, Neo4j projects that are available under open source licenses may be copied, modified, or sold by third parties, but they cannot be branded or marketed with Neo4j trademarks in the absence of a trademark license.

While open-source licenses allow modification of copyrighted software and distribution in original or modified form, such distribution could be misleading if distributed under the same name. This could cause confusion among consumers of the software as to source. They may mistakenly believe they are receiving software that is produced or supported by Neo4j. This Policy describes the circumstances under which you may use our trademarks, regardless of the type of license you may have from Neo4j. In this Policy we are not trying to limit the lawful use of our trademarks, but rather describe for you what we consider the parameters of lawful use to be. Trademark law can be ambiguous, so we hope to provide enough clarity for you to understand whether we will consider your use licensed or non-infringing.

Neo4j® software, which is created and/or distributed by Neo4j, is the software in the exact form that it is distributed by Neo4j without modification of any kind. To the extent any authorized modifications are made to the software, such modified software should no longer bear the Neo4j trademarks. The public has a right to know when it is receiving a genuine Neo4j® product that is quality assured by Neo4j.

9/26/2019

Trademark Guidelines - Neo4j Graph Database Platform

The sections that follow describe what trademarks are covered by this Policy, as well as uses of the trademarks that are allowed without additional permission from us. Any use that does not comply with this Policy or for which we have not separately provided written permission is not a use that we have approved, so you must decide for yourself whether the use is nevertheless lawful.

Our Commitment to Open Source Principles

We want to encourage and facilitate the use of our open source software by the community, but do so in a way that still ensures that the Neo4j trademarks are meaningful as a source and quality indicator for our software and the associated goods and services and continue to embody the high reputation of the software and the community associated with it. This Policy therefore tries to strike the proper balance between: 1) our need to ensure that our trademarks remain reliable indicators of the qualities that they are meant to preserve and 2) our community members' desire to be full participants in Neo4j® projects.

Trademarks Subject to the Guidelines

Our Trademarks

This Policy covers the following non-exhaustive list of our trademarks:

1. Our word trademarks and service marks (the "Word Marks"):

Neo4j®

Cypher®

Neo4j® Bloom™

Neo4j® Desktop™

Neo Technology®

2. Our logos (the "Logos")

3. The unique visual styling of our website and elements used in or otherwise related to the products and services we offer (the "Trade Dress"). See our [Style Guide](#) for further information.

This Policy encompasses all trademarks and service marks, whether Word Marks, Logos or Trade Dress, which are collectively referred to as the "Marks." Some Marks may not be registered, but registration is not necessarily required for ownership of trademarks. This Policy covers our Marks whether they are registered or not.

Universal Considerations for All Uses

The following guidelines show proper (and improper) use of Marks. Any use of the Marks must be licensed and comply with these guidelines. Whenever you use one of the Marks, you must always do so in a way that does not mislead anyone, either directly or by omission, about exactly what they are getting and from whom. For example, you cannot say you are distributing the Neo4j® software when you're distributing a modified version

9/26/2019

Trademark Guidelines - Neo4j Graph Database Platform

of it, because people would be confused when they are not getting the same features and functionality they would get if they downloaded the software directly from us. You also cannot distribute Neo4j® software using the Marks if you do not have a license from us, because that would imply that your distribution comes from or is supported by Neo4j. You cannot use our Marks on your website in a way that suggests that your website is an official website or that we endorse your website, unless permitted in a written agreement with us. You can, though, say you like the Neo4j® software, say that you participate in the Neo4j® community, or refer to Neo4j® products and services.

This fundamental requirement, that it is always clear to people what they are getting and from whom, is reflected throughout this Policy. It should also serve as your guide if you are not sure about how you are using the Marks.

In addition:

You may not use the Marks in association with the use or distribution of software if you are also not in compliance with the copyright license for the software.

You may not use or register, in whole or in part, the Marks as part of your own trademark, service mark, domain name, company name, trade name, product name or service name.

Provided that you have obtained a license from Neo4j, you can use the Word Marks in book and article titles, and the Logo in illustrations within the document, as long as the use does not suggest that we have published, endorse, or agree with your work.

Trademark law does not allow your use of names or trademarks that are too similar to ours. You therefore may not use an obvious variation of any of our Marks or any phonetic equivalent, foreign language equivalent, takeoff, or abbreviation for a similar or compatible product or service. This includes combinations or integrations of all or portions of the Marks in a way that the public may think of the use as a new mark (e.g. SuperNeo4j, or Neo5k).

You agree that you will not acquire any rights in the Marks and that any goodwill generated by your use of the Marks inures solely to our benefit.

Proper Use of the Marks

These rules hold true for all trademarks, not just ours, so you should follow them for our Marks as well as anyone else's.

Always use the Marks in their Exact Form and Distinguishable from Other Text. Always use the Word Marks in a manner distinguished from surrounding text, with initial capital letters, and in the exact form with the correct spelling (neither abbreviated, hyphenated, or combined with any other word or words).

CORRECT

Use Marks as Proper Adjectives Followed by a Generic Term. Trademarks should be used as adjectives followed by a generic modifier, and not as nouns or verbs. Trademarks are products or services, never actions. Do not use "a" or "the" to refer to an instance of the Marks. For example:

Use of Logos

You may not change any Logo except to scale it proportionally. This means you may not add decorative elements, change the colors, change the proportions, distort it, add elements, or combine it with other logos. The logo may only be used displaying the exact colors shown in our [Style Guide](#).

Mark Attribution and Notices

The first or most prominent mention of a Mark on a webpage, document, packaging, or documentation should be accompanied by a symbol indicating whether the mark is a registered trademark ("®") or an unregistered trademark ("™"). Also, if you are using our Marks for uses for which we are granting a separate license, please put following notice at the foot of the page where you have used the Mark (or, if in a book, on the credits page), on any packaging or labeling, and on advertising or marketing materials: "Neo4j is a trademark or registered trademark of Neo4j, Inc. or its subsidiaries in the United States and/or other countries."

Possible Infringement

If you are aware of any confusing use or misuse of the Marks in any way, we would appreciate you bringing this to our attention. Please contact us at webinfo@neo4j.com so that we can investigate it further.

Updates

Neo4j reserves the right to modify or update this Policy at any time. You should review this Policy from time to time so that you will be aware of any modifications or updates as they will apply as soon as they are posted on this page.

Further Information

Neo4j has tried to make this Trademark Policy as comprehensive and understandable as possible. If you have any questions about this Policy, would like to speak with us about the use of our Marks in ways not described in the Policy, or see any abuse of our Marks, please [contact us](#).

To Mr. Suhy:

Re: PureThink LLC's ("PureThink") breach of Neo4j Solution Partner Agreement with Neo Technology, Inc. ("Neo Technology") dated September 30, 2014 ("Agreement")

I am writing on behalf of Neo Technology. As we have discussed and as you know, PureThink is prohibited from using any Neo Technology open source products and from developing, marketing distributing or offering any services related to any Neo Technology open source products as set forth in Section 4.3 of the Agreement. From your own admissions in conversations with both John Broad and Jason Zagalsky, PureThink uses Neo Technology open source products and has distributed and performed services on, and continues to perform services on, Neo Technology open source products for the Internal Revenue Service. PureThink has also stated its intent to market and create a consulting business around Neo Technology open source products.

Thus, the purpose of this letter is to provide PureThink with a formal notification of PureThink's material breach of the Agreement under Section 7.2 of the Agreement. If PureThink fails to cure this breach within thirty (30) days of the date of this letter by both: (i) entering into an order form for the Internal Revenue Service's use of Neo4j software with Neo Technology in the form provided by Neo Technology and paying the applicable fees to Neo Technology, (ii) executing the proposed amendment to the Agreement and (iii) ceasing all use of all Neo Technology open source products and ceasing all marketing, distribution, development and services of or for any Neo Technology open source products to Neo Technology's satisfaction except as expressly set forth in the proposed amendment to the Agreement, then the Agreement is and will be automatically terminated. Such termination will be effective on the thirtieth day after the date of this letter (whether or not Neo Technology provides a subsequent termination notice to PureThink).

If the Agreement terminates as set forth herein, we would like to remind you of your continuing obligations under the Agreement as set forth in Section 7.4 of the Agreement.

Neo Technology further reserves all of its rights and remedies at law and equity under the Agreement and does not waive any rights under the Agreement.

If you have any questions regarding this letter, please contact John Broad at john.broad@neotechnology.com.

Sincerely,

To Mr. Suhy:

Re: Termination of Neo4j Solution Partner Agreement between PureThink LLC ("PureThink") and Neo4j, Inc. formerly Neo Technology, Inc. ("Neo ") dated September 30, 2014 ("Agreement") due to PureThink's uncured breach

Neo hereby notifies PureThink that the Agreement is immediately terminated pursuant to Section 7.2 of the Agreement. As you are aware, PureThink failed to timely cure its numerous material breaches set forth in our letter dated May 30, 2017 ("Breach Notice") or to otherwise respond to Neo's attempts to delay termination of the Agreement.

With the termination of the Agreement, Neo would like to remind PureThink of its continuing obligations as set forth in Section 7.4 of the Agreement. Critically, as PureThink's rights and licenses under the Agreement have terminated, PureThink must immediately cease representing that it is an authorized partner or reseller of Neo, including without limitation, ceasing all references to Government Edition of Neo4j, soliciting any current, former, or prospective End Users (including Sandia National Lab, IRS, MPO and FBI), assisting in the procurement or renewal of any of Neo's products, solutions, or services, or providing any procurement support, FISMA services, software development services, or training services to Neo's existing or prospective End Users.

Additionally, as set forth in the Agreement, for thirty six (36) months after the termination of this Agreement, PureThink must not develop, market, distribute or offer any services related to any Neo Technology Community Edition Products (defined in the Agreement as an open source version of a Neo software product, which includes, but is not limited to, GPL v3 licensed Neo4j Community Edition and AGPL v3 licensed Neo4j Enterprise Edition), derivative works of such products, or any PureThink software code made to work with Neo Technology Community Edition Products (including, without limitation, hosting services, training, technical support, configuration and customization services, etc.).

PureThink must also return all Confidential Information in its possession, custody, and control and cease using Neo's trademarks, service marks, and other designations. Neo therefore demands that PureThink immediately cease and desist all uses of, and remove from PureThink's website(s) and marketing materials, Neo's trademarks and tradenames, including, without limitation, Neo4j. PureThink has no rights to use Neo's trademarks or tradenames and continued use of such trademarks and/or tradenames will constitute trademark infringement.

Neo further reserves all of its rights and remedies at law and equity under the Agreement, including without limitation invoking its audit rights under the Agreement. Neo does not waive any rights under the Agreement, and this termination is not intended to and does not affect any prior or other termination rights or notices provided under the Agreement.

If you have any questions regarding this letter, please contact John Broad at john.broad@neotechnology.com.

Neo4j Government Edition News

If your agency was planning on procuring Neo4j Government Edition, then please checkout iGov Inc's new **Government Package** for Neo4j (<https://web.archive.org/web/20171102094315/https://igovsol.com/neo4j.html>).

PureThink, the company who created, managed and sold Neo4j Government Edition to all US Federal agencies has ceased their partnership with Neo Technology and Neo4j Government Edition has been retired.

The principle behind PureThink and the Government Package has created a new corporate entity called **iGov Inc**, which is not a Neo4j Solution Partner. Because iGov Inc is not a solution partner, it can offer packages at great cost savings to US Government Agencies as it has no restrictions on working with Neo4j Enterprise open source licenses!

iGov Inc and the new **Government Package** for Neo4j allows agencies to spend their money on developing innovative solutions around Neo4j, not paying for unnecessary production support before they even have a solution built that could be in production.

iGov Inc's new **Government Package** for Neo4j can be added to any Neo4j instance making it a "Government Edition". By default, all Government Packages for Neo4j now comes with Neo4j Enterprise included under its open source license!

PHILOSOPHY

To help you succeed, we believe in working closely and cooperatively with our clients. Our goal is to ensure everyone on the same page regarding project status, methods and tasks. Our approach is to develop software according to an Agile methodology which means we emphasize people and interaction rather than complicated processes and endless documentation.

RESULTS

Our mission is to bring the greatest value to our clients by leveraging our considerable depth of resources and experience. We align our approach to the specific business drivers of each business we work with whom we tailor solutions to best suit different cultural environments, industries, and market conditions. We focus on business strategy implementation, not business strategy development.

Neo4j Enterprise Open Source Frequently Asked

(index.html)

We've gathered together questions we receive from agencies and integrators regarding Neo4j Enterprise Open Source licenses. If you have a question for us, please email us at neo4j@igovsol.com (<mailto:neo4j@igovsol.com>).

Is Neo4j Enterprise Really Open Source?

YES, Neo4j Enterprise is open source under the AGPLv3 open source license created by the Free software foundation. View License (<https://www.gnu.org/licenses/agpl-3.0.en.html>). This is the same license used by MongoDB and many other open source projects. As long as you follow the open source license terms you are free to use it in any environment, for any purpose you wish. These terms simply ensure custom derivatives of Neo4j Enterprise are also themselves open source. US government agencies are restricted from making closed source software in most situations and do not try to create their own derivative (version) of Neo4j. Instead they use Neo4j as a server in a much larger enterprise architecture stack. AGPLv3 is a no-brainer for US government use cases! It's that simple!

What is the open source license does Neo4j Enterprise use?

Neo4j Enterprise can be used for free under the Free Software Foundation's GNU AFFERO GENERAL PUBLIC LICENSE Version 3 (<https://www.gnu.org/licenses/agpl-3.0.en.html>).

It is the same license used by many open source tools such as MongoDB. There are no hidden or limiting terms beyond the standard AGPL v3.0 license (AGPLv3). What are the restrictions of AGPLv3 and do I need to worry about them?

There simply are none that we've ever run into.

The AGPL license ensures that if you make a derivative of Neo4j that you must ensure that you release the code of the derivative back to the community. That's it! It does not require you to release the tools, other applications, that connect and use Neo4j.

Can I use Neo4j Enterprise open source licenses in production?

Yes, of course you can. It's 100% free and open source. The standard AGPLv3 open source license simply ensures that Neo4j remains open source and that any custom derivatives of Neo4j should be shared with the community.

What is the difference between Neo4j Enterprise AGPLv3 and Neo4j Enterprise Trial?

Read the Neo4j Enterprise Trial license agreement they ask you to agree to before downloading and you will see the difference. It tries to bind you to restrictive commercial terms. There is no reason you would want to agree to restrictive terms for the Trial download , when you can use Neo4j Enterprise for any environment including Production under the simple AGPLv3 open source license. Neo4j Enterprise Open Source Frequently Asked Questions

We've gathered together questions we receive from agencies and integrators regarding Neo4j Enterprise Open Source licenses. If you have a question for us, please email us at neo4j@igovsol.com (<mailto:neo4j@igovsol.com>).

Is Neo4j Enterprise Really Open Source?

YES, Neo4j Enterprise is open source under the AGPLv3 open source license created by the Free software foundation. View License (<https://www.gnu.org/licenses/agpl-3.0.en.html>). This is the same license used by MongoDB and many other open source projects. As long as you follow the open source license terms you are free to use it in any environment, for any purpose you wish. These terms simply ensure custom derivatives of Neo4j Enterprise are also themselves open source. US government agencies are restricted from making closed source software in most situations and do not try to create their own derivative (version) of Neo4j. Instead they use Neo4j as a server in a much larger enterprise architecture stack. AGPLv3 is a no-brainer for US government use cases! It's that simple!

What is the open source license does Neo4j Enterprise use?

Neo4j Enterprise can be used for free under the Free Software Foundation's GNU AFFERO GENERAL PUBLIC LICENSE Version 3 (<https://www.gnu.org/licenses/agpl-3.0.en.html>).

It is the same license used by many open source tools such as MongoDB. There are no hidden or limiting terms beyond the standard AGPL v3.0 license (AGPLv3). With Neo4j Enterprise under its free open source AGPLv3 license, You simply don't get production email and phone support from Neo4j Inc. You can get a much cheaper support contract through iGov Inc for a fraction of the cost to support your production deployment, and our team is the only one with Neo4j federal past performance at this point in time.

Where can I download the open source Neo4j Enterprise binaries?

Neo4j removed the open source binaries they compiled from their distribution sites so you can no longer get open source packages from Neo4j Inc. Luckily iGov Inc compiles the binaries from the official Neo4j source code repositories (<https://github.com/neo4j>).

See our blog post to learn more (<https://blog.igovsol.com/2017/11/14/Neo4j-330-is-out-but-where-are-the-open-source-enterprise-binaries.html>)

Where can I get the sourcecode for Neo4j Enterprise?

You can get all the Neo4j Enterprise source code at the official Neo4j GitHub Repositories (<https://github.com/neo4j/neo4j>).

No, Neo4j Enterprise is released only under the standard AGPLv3 open source license that is managed by the free software foundation. View the AGPLv3 License (<https://www.gnu.org/licenses/agpl-3.0.en.html>) No one is allowed to modify the standard license and still call it the

Neo4j 3.3.0 is out, but where are the open source enterprise binaries?

Neo4j Enterprise is still open source under its AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>). However you may have noticed that you can no longer build the enterprise package binary from the source code or download the enterprise package binary with its free AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>) from dist.neo4j.org. Furthermore, if you use docker, you must now accept a 'commercial agreement' before proceeding (<https://github.com/neo4j/docker-neo4j-publish/commit/aa31654ee8544cd544b369d2646cf372086f7b70>). In other words, official Neo4j docker images are no longer packaged with the free AGPLv3 (<https://www.gnu.org/licenses/agpl-3.0.en.html>) licensed binaries.

Neo4j Enterprise 'binaries' are simply the compiled and packaged Neo4j distributions you download and run on your computer, server, container, etc.

For the 3.3.0 release the enterprise binary package file names would be `neo4j-enterprise-3.3.0-unix.tar.gz` (<https://dist.igovsol.com/neo4j-enterprise-3.3.0-unix.tar.gz>) for the linux package and `neo4j-enterprise-3.3.0-windows.zip` (<https://dist.igovsol.com/neo4j-enterprise-3.3.0-windows.zip>) for the windows package. (The links above point to the binaries iGov Inc compiled and packaged using the source code found at the Neo4j Github repository. By default it is packaged with the AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>).)

Why has Neo4j Inc made it harder to access the open source enterprise binaries?

If they are going to take the trouble to make Neo4j Enterprise more inaccessible to the public, why not just take Neo4j closed source before releasing 3.3.0?

Only Neo4j Inc can answer these questions, and I feel they owe an explanation to the open source community which has made Neo4j what it is today.

With ambitions of an IPO, it would be an extremely risky maneuver to attempt taking Neo4j closed source. It could backfire and be disastrous if the community revolted and creates a more successful Neo4j fork. Even the perceived threat of this sort of behavior could trigger a revolt and fork.

As a reference, look no further than MySQL and MariaDB (<https://mariadb.org/about/>), the more popular fork of MySQL, and you can see what could happen (<https://www.zdnet.com/article/open-source-mariadb-a-mysql-fork-challenges-oracle/>).

It looks like Neo4j Inc does not want to tempt fate with a closed source move just yet. Instead another path was taken which makes it very hard to get ahold of the enterprise packaged binaries with the free AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>). As a passionate advocate of both open source software and Neo4j, this does not sit well with me.

Federal agencies have already invested in the adoption and use of Neo4j Enterprise and many are using its free AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>). Luckily, iGov Inc builds the Neo4j binaries from the source code and makes it available via a distribution site we setup (<https://igovsol.com/downloads.html>).

Back to the core of this post. So what has Neo4j Inc done to limit your access to Neo4j Enterprise binaries packaged with the free open source AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>)?

Action 1: The enterprise packaging build instructions were removed from the code base (<https://github.com/neo4j/neo4j/commit/affe1a0b4ab47c9d4673bfa507868ccd03c48ddd>). Until the 3.3.0 release, anyone could have checked out the Neo4j source code from github (<https://github.com/neo4j/neo4j>), and run a few simple commands to build the Neo4j Enterprise binaries complete with the AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>). That's not the case anymore. If you run the build commands on the 3.3.0 branch you will notice that only the Neo4j Community Edition binary is present after the build process completes. Who really uses Neo4j Community Edition once they realized Neo4j Enterprise edition is also free?

The packaging system simply provides the instructions on how to 'build' the Neo4j Enterprise distribution binary, much like the instructions you get with furniture purchased at IKEA. All the artifacts that are used to build the Neo4j Enterprise binary are all open source, but the instructions explaining how to put together these artifacts have disappeared.

Action 2: Neo4j Inc slipped a commercial license into the official binaries found on their distribution site that is used for docker images. Until now, if you wanted to download the Neo4j Enterprise binary from Neo4j Inc directly, you could have done so using the distribution site which is publically available. It just isn't advertised for obvious reasons.

Those who were using the official docker images or downloading the enterprise binary directly from dist.neo4j.org were in for a surprise when they were forced to accept commercial terms in order to access the distributions.

Want to see for yourself - download the Neo4j Enterprise binary (<http://dist.neo4j.org/neo4j-enterprise-3.3.0-unix.tar.gz>) which Neo4j Inc packages and take a look at the LICENSE.txt file.

Instead of the standard AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>) which used to be there, the LICENSE.txt file now says:

```
Network Engine for Objects in Lund AB. 2017.
All Rights Reserved. Use of this Software without
a proper commercial license with Neo4j, Inc. or its affiliates
is prohibited.
```

As copyright holders, Neo4j Inc has the right to add any license they want for the binary distributions they build, package, and make available for download themselves. If anyone else packages the enterprise binary distribution like we do, you must simply make sure the LICENSE.txt file is the AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>). That is exactly what we do.

Action 3: Neo4j Inc kept causal cluster communication encryption (Intra-cluster encryption) off by default. They then created a 'proprietary module' that turns it on.

Of course you can get intra-cluster encryption turned back on by purchasing a costly commercial package.

This move was referenced in the 3.3.0 release changelog (<https://neo4j.com/release-notes/neo4j-3-3-0/>). They justified this change with the following blurb:

Neo4j Enterprise Edition binaries now include new proprietary add-ons. Intra-cluster encryption is the first of these. Consequently Neo4j Enterprise Edition can no longer be distributed under a dual license but the source is still available under AGPLv3.

Of course Neo4j Enterprise can still be distributed under the AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>). Simply provide a binary download without the 'proprietary add-ons' that turn on intra-cluster encryption. The Neo4j Enterprise binaries we make available to the public are proof that this can be done.

I believe that security critical components of Neo4j should remain open source, security by obscurity has proven not to be a good strategy in the past. Currently, the security components of Neo4j Enterprise are still open source. In the case of intra-cluster encryption (causal clustering) - it is just not initialized.

Right now the only difference between the paid Neo4j Enterprise (commercial) binary and Neo4j Enterprise (open source) binary (we compile from source) is that intra-cluster encryption is still off by default in the AGPLv3 version.

We turn it back on for our federal customers via a new component in our FISMA framework, which will be available on github for everyone to use soon.

How many of you are actually using causal clustering in production? Well - if you upgrade to 3.3.0 and don't turn it back on yourself, you may be a little less secure assuming you aren't using encrypted tunnels / vpn, etc between your cluster nodes.

Look for yourself:

3.2 release code (<https://github.com/neo4j/neo4j/blob/3.2/enterprise/causal-clustering/src/main/java/org/neo4j/causalclustering/discovery/HazelcastClientConnector.java>) : The sslPolicy initialized in the code.

```
HazelcastClientConnector( Config config, LogProvider logProvider, SslPolicy sslPolicy,
    HostnameResolver hostnameResolver )
{
    this.config = config;
    this.logProvider = logProvider;
    this.sslPolicy = sslPolicy;
    this.hostnameResolver = hostnameResolver;
}
```

3.3 release code (<https://github.com/neo4j/neo4j/blob/3.3/enterprise/causal-clustering/src/main/java/org/neo4j/causalclustering/discovery/HazelcastClientConnector.java>) : The sslPolicy initialization has disappeared.

```
HazelcastClientConnector( Config config, LogProvider logProvider, HostnameResolver
hostnameResolver )
{
    this.config = config;
    this.logProvider = logProvider;
    this.hostnameResolver = hostnameResolver;
}
```

These three actions effectively made it impossible to get Neo4j Enterprise binaries with the open source AGPLv3 license (<https://www.gnu.org/licenses/agpl-3.0.en.html>) from Neo4j Inc starting with the 3.3.0 release.

As a consulting company offering software development and support for Neo4j Enterprise open source licenses to the US federal government, we have been building the binaries ourselves for some time.

As part of the Neo4j open source community, we've decided to absorb the hosting costs and make these distributions available to the general public, not just US federal agencies. We've setup a distribution site that can be used to download Neo4j Enterprise directly, or use use with docker compose.

We will have docker images up as well complete with the AGPLv3 (<https://www.gnu.org/licenses/agpl-3.0.en.html>) licensed packages.

We will also have the FISMA framework modules on GitHub soon, one of which turns back on intra-cluster encryption.

You can download the Neo4j Enterprise binaries with the open source license from our website at <https://igovsol.com/downloads.html> (<https://igovsol.com/downloads.html>).

We compile and package these using the source code from the official Neo4j GitHub repositories.

Federal agencies should email us at support@igovsol.com (<mailto:support@igovsol.com>) to get their AWS GovCloud download links which should be whitelisted for most agencies.

If you would were not aware that Neo4j Enterprise is open source just like it's sibling 'Neo4j Community Edition', you can learn more here (<https://igovsol.com/downloads.html#neo4j-os-faqs>).

If you are not happy with Neo4j Inc's behavior, then please reach out to Neo4j Inc and voice your concerns.

Feel free to contact me directly via email at jmsuhy@igovsol.com (<mailto:jmsuhy@igovsol.com>) if you have questions, comments, or just want to talk about Neo4j in general. We are always available.

You can find a list of differences on [the price comparison overview](#).

Features the Open Source version lacks are:

- High-Performance Cache
- Clustering
- Online Backup
- Advanced Monitoring

The paid licenses also come with a support contract (you can ask for help from people who will not downvote, edit or close your questions).

Neo4j Enterprise just has more 'enterprise features' such as clustering and additional security for example. The comparison link the other poster provided is good to see the differences between enterprise and community server but it does not mention that Neo4j Enterprise is also free under its open source license! I would just focus on Neo4j server, not the new 'platform' they are now pushing.

By using our site, you acknowledge that you have read and understand our [Cookie Policy](#), [Privacy Policy](#), and our [Terms of Service](#).

You can download Neo4j Enterprise versions before 3.3.0 from the neo4j distribution site below. (3.2.8 is the last version that includes the AGPL license on their distribution site.)

<http://dist.neo4j.org/neo4j-enterprise-3.2.8-windows.zip>

OR

If you want to use the newest free Neo4j Enterprise edition (currently 3.3.1 as of today) then you can download the free open source binaries we package from source for our government clients at <https://igovsol.com/downloads.html>

Once you download the zip file to the following to get started. (Assuming you have JAVA setup on your windows machine.)

<https://neo4j.com/docs/operations-manual/current/installation/windows/>

- 1) Right-click the downloaded file, click Extract All. Change directory to top-level extracted directory.
- 2) Run bin\neo4j console
- 3) Stop the server by typing Ctrl-C in the console.

The enterprise package is 100% free under it's open source AGPL license.

Unzip the package you download and you can verify it by looking at the LICENSE.txt

If you are curious about learning why you can't get the free AGPL binaries after 3.3.0 - checkout a blog post I wrote at <https://blog.igovsol.com/2017/11/14/Neo4j-330-is-out-but-where-are-the-open-source-enterprise-binaries.html>

This answer has changed. Neo4j is now open core, so the Enterprise code is no longer dual-licensed - only the commercial license option remains.

You can find more details here: <https://neo4j.com/open-core-and-neo4j/>

Original Answer:

Enterprise is available as quid-pro-quo - if you put your code out under an open source license, then you get access to the open source Neo4j Enterprise free of charge. However, if you are closed

Yes i saw this some time back on the neo4j website....It wasnt there earlier so i had raised a query. but Thanks for the same! – DevD Apr 7 '14 at 11:18

Lol, sorry, I had the wrong tab open, didn't see how old this question was. Sorry about that. Thanks for the "answered" anyway :) – Jacob Davis-Hansson Apr 7 '14 at 11:22

@JacobDavis-Hansson any idea how to get/build the AGPL for version > 3.2 . They stopped packaging enterprise version now with them. – Himanshu Jain Oct 24 '18 at 21:07

How to use AGPL for veersion 3.5? Is it necessary to make our code public? By code you mean the database as well as queries? – pragya18nsit Feb 20 at 7:59

@pragya18nsit I'm afraid this answer was out of date, the licensing has changed since I wrote it. I've updated the answer to reflect the current state. – Jacob Davis-Hansson Feb 21 at 13:48

Actually Neo4j Enterprise is free under the open source AGPLv3 license.

0

Neo4j Inc can't modify the terms and still call it AGPL.

If you use Neo4j Enterprise as a server (like most people do) and communicate with it via its REST API or any of the official BOLT drivers then you never trigger AGPL's copyleft requirements.

In other words - the software that connects to it does not have to be open sourced.

You can download Neo4j Enterprise open source licensed binaries up to version 3.2.x from dist.neo4j.org. The links for the windows and unix packages are below. (Replace the version number for specific versions)

<http://dist.neo4j.org/neo4j-enterprise-3.2.8-windows.zip>

<http://dist.neo4j.org/neo4j-enterprise-3.2.8-unix.tar.gz>

If you want Neo4j Enterprise 3.3.0 and on under it's free open source license, then you can build them from source like we do for our US government clients, or just grab them from our free distribution site.

Check out the blog post if you want to understand why this has happened.

By using our site, you acknowledge that you have read and understand our Cookie Policy, Privacy Policy, and our Terms of Service.

You're thinking of the GPL, the Affero GPL explicitly exists to cover the over-the-network loophole you mention. See [stackoverflow.com/questions/2127246/...](https://stackoverflow.com/questions/2127246/) or the first sentence in the license preamble here: gnu.org/licenses/agpl-3.0.en.html – [Jacob Davis-Hansson](#) Dec 6 '17 at 13:24

- 1 I am actually talking about AGPL, not GPL. AGPL does address the 'distribution' loophole that GPL does not have. However, you have to remember that we are talking about 'distribution' of a 'derivative work'. Neo4j Enterprise is run as a server or cluster of servers in an enterprise architecture. You only interact with it via the REST API or the official bolt drivers, all of which are Apache licensed. Any software communicating with it does not trigger GPL's copy-left requirements and does not have to be open sourced. – [John Mark](#) Dec 6 '17 at 22:49
- 1 MongoDB has a post on AGPL which describes it great: mongodb.com/blog/post/the-agpl "Note however that it is NOT required that applications using mongo be published. " – [John Mark](#) Dec 6 '17 at 22:53
- 1 Finally, Here is an analogy that may make sense. Imagine you develop a new proprietary web browser. If someone uses your browser to go to a website who's content is AGPL licensed, this interaction does trigger AGPL's copyleft requirements requiring you to release the code of your proprietary browser. Also - if you think of open source apps like drupal, then that is a good example of why AGPL is here. I hope this all helps! – [John Mark](#) Dec 6 '17 at 22:54

Just an extract of the readme on the github repo of neo4j : "The Enterprise edition is available under the AGPLv3 license for open source projects otherwise under a commercial license" – [logisima](#) Dec 6 '17 at 23:17

@JohnMark, this is getting somewhat far into legal advice, which I'm not in a place to give. I'll make two notes and leave this at that: One, your browser analogy is true, but not because the AGPL allows that, but because accessing a public website does not constitute agreeing to a contract you don't know about until you've downloaded it, for obvious reasons. – [Jacob Davis-Hansson](#) Dec 7 '17 at 0:14

Two, the Linux network stack is open source as well, just like the Mongo drivers are; if the AGPL software could be nullified by accessing it via a layer with another license it would serve no purpose; when you access an AGPL system via the Linux TCP/IP stack, you agree to *both* licenses, not just the one you are linking into your program. – [Jacob Davis-Hansson](#) Dec 7 '17 at 0:17

- 1 I should point out that I am not a lawyer either. We do work with very good lawyers that help us on topics such as this. I believe the linux kernel is GPL not AGPL. The TCP/IP stack would most likely be in the kernel meaning your example may not be the best. There is a reason mongodb made it's official drivers apache licensed and not AGPL. (Mongodb server is AGPL just like Neo4j Enterprise). Just an FYI, my expertise on this subject comes directly from my involvement of AGPL licenses in the US Federal government. I would be happy to chat about it in detail anytime if you message me. – [John Mark](#) Dec 7 '17 at 0:51

@logisima - regarding the readme in github. I have a blog post coming out that touches on this behavior and AGPL. It's great at causing confusion though! They could also add that their software can only be used during full moons. The fact is AGPL comes from the free software foundation. You can not add or modify terms and still call it AGPL. But my post will touch on all sorts of confusion on this subject because of unclear statements such as that one. In my post I will show why this statement is invalid for the most common use cases of Neo4j. – [John Mark](#) Dec 7 '17 at 1:00

@JohnMark can you provide more details as to how to build the enterprise version from source for the newer versions. – [Himanshu Jain](#) Oct 24 '18 at 21:09

Proven past performance and value supporting Neo4j Enterprise open source licensed distributions.

Our team has been providing Neo4j support to US Federal agencies for many years, and we now only offer commercial equivalent support packages for Neo4j Enterprise open source licensed distributions.

Request Procurement Document Package (<mailto:neo4j@igovsol.com>)

Our team is the same team that created Neo4j Enterprise Government Edition. Further, we are the same team that sold and supported every US Federal Government procurement of Neo4j Enterprise Government Edition up until its retirement in July 2017.

We only focus on only supporting 100% free and open source ONgDB Enterprise (<https://www.graphfoundation.org/projects/ongdb/>) & Neo4j Enterprise open source licensed distributions. Not only does this cut down on unnecessary commercial license costs, the open source licenses do not place any restrictions on the number of cluster instances or cores like the commercial licenses do.

It is important to know your options before you make any procurement decisions around Neo4j. The information below provides you with a complete breakdown of the 3 main Neo4j offerings available including the free open source option. Most people are not aware that Neo4j Enterprise Edition is open source like its sibling, Neo4j Community edition. In fact, there is no reason you should be using the community edition. If you've chosen to use Neo4j open source, then you should use the enterprise edition under it's open source license.

Development Package Overview

The Government Development Packages are aimed at agencies who need help building a robust and scalable solution around Neo4j. Unlike the commercial production support subscriptions, 100% of the cost goes into consulting services that help you build out your solution.

All iGov Inc packages also include a suite of tools and services which are combined to address critical FISMA and accessibility requirements relating to Neo4j.

Customer Support

iGov Inc provides umbrella support across all the components of your Neo4j solution, including Neo4j itself. For example, a solution using Neo4j Enterprise, Apache Kafka, Elastic Search, and custom micro-service architecture components are all covered under the umbrella support

provided with these packages. The Neo4j commercial support subscriptions only cover Neo4j

(index.html)

UI/UX Development

The development packages include UI and UX design services to assist developing everything from your dashboards and visualization. We ensure all development meets 508(c) requirements. We cover all modern web design frameworks including ReactJS and AngularJS. Furthermore, we provide a toolbox of open source visualization libraries and webapp starter projects to get your project up and running quickly.

You can also add on UI packages such as Linkurious OGMA and Graphlytic Visualization tools and APIs.

Starter Projects and Toolsets

We provide a suite of starter projects (maven and gradle), templates, and tools to get your Neo4j projects off the ground quickly. Our Starters include Docker images, Microservice architecture components (api gateways, service registries, etc), UI and visualization components and more.

Enterprise Architecture Development

Neo4j is usually just one of many components in a common graph solution. Other components include ElasticSearch, Apache Kafka, and other technologies.

Our team brings a wide range of enterprise architecture development expertise to the table. From monolithic to micro-service architectures, our team will help design a solution that best fit's your agency's needs.

GraphGrid Data Platform

GraphGrid Data Platform (GDP) is an enterprise-grade graph data management platform that enables a centralized architecture for running batch, interactive and real-time analytics and data processing applications simultaneously across your connected graph data. Development packages include the tools, and platform components needed to get a robust and scalable ETL pipeline in place.

Newest Libraries and Repositories

The Government Packages for Neo4j include many of the leading technologies which are all covered under the umbrella package support. In many cases, this allows for agencies to start working with new technologies that would have usage restrictions if not part of a vendor supported package such as this. All libraries and repositories are kept on Amazon GovCloud and can be easily accessed once an agency whitelists the servers. Development packages include access to the newest libraries and repositories for the tools we package and support.

GovCloud Development and Continuous Integration Environment

iGov : Innovative Government Solutions

We understand that many agencies have not adopted the newest technologies and best practices to make modern web application development almost impossible. Our development (index.html) includes use of GovCloud resources including EC2, S3, Container Services, and more.

Pricing Comparison

Below is a price comparison for a Neo4j Inc. commercial subscription package covering 3 production instances with 8 cores each. (3x8). The Neo4j Inc. commercial package is not a perpetual license, and the commercial EULA limits your use of Neo4j open source licenses in many ways once accepted. Notice that it also has unnecessary production elements which you are paying for as part of the subscription. Neo4j Inc's pricing can be found via a simple GSA Advantage search.

Neo4j Inc. Commercial Subscription (Annual Subscription)

Neo4j Enterprise Bundle – Standard cluster for enterprise applications that are used by more than one department (or by a larger department), or by customer-facing applications.

Comes with same physical Neo4j Enterprise software. Under open source license there are no limitations on how you use it. You have no limits on environments, number of instances, cores, etc!

Government Bundle for Neo4j Enterprise basic configuration includes:

- a. Unlimited instances with no core limits for any environment! (dev, test, staging, production, etc)
- c. Premium support and development services by iGov Inc. Unlike the Neo4j commercial package, we support your entire architecture not just Neo4j. (Neo4j, Elasticsearch, UI, Micro Services, etc..)
- d. No limitations on number of developers, etc.

\$25,000+

100% goes into development.

The minimum development package costs \$25,000. For comparison - you can choose the \$189,000 Development package option - where \$189,000 goes into consulting services at GSA approved rates.

Of course - you can choose how much you want to spend. We simply offer packages that parallel commercial subscription rates to help make procurement easier.

We provide a suite of starter projects (maven and gradle), templates, and tools to get your Neo4j projects off the ground quickly. Our Starters include Docker images, Microservice architecture components (api gateways, service registries, etc), UI and visualization components and more.

☐ Enterprise Architecture Development

Neo4j is usually just one of many components in a common graph solution. Other components include ElasticSearch, Apache Kafka, and other technologies.

Our team brings a wide range of enterprise architecture development expertise to the table. From monolithic to micro-service architectures, our team will help design a solution that best fit's your agency's needs.

☐ GraphGrid Data Platform

GraphGrid Data Platform (GDP) is an enterprise-grade graph data management platform that enables a centralized architecture for running batch, interactive and real-time analytics and data processing applications simultaneously across your connected graph data. Development packages include the tools, and platform components needed to get a robust and scalable ETL pipeline in place.

☐ Newest Libraries and Repositories

The Government Packages for Neo4j include many of the leading technologies which are all covered under the umbrella package support. In many cases, this allows for agencies to start working with new technologies that would have usage restrictions if not part of a vendor supported package such as this. All libraries and repositories are kept on Amazon GovCloud and can be easily accessed once an agency whitelists the servers. Development packages include access to the newest libraries and repositories for the tools we package and support.

☐ GovCloud Development and Continuous Integration Environment

We understand that many agencies have not adopted the newest technologies and best practices which can make modern web application development almost impossible. Our development packages include use of GovCloud resources including EC2, S3, Container Services, and more.

Pricing Comparison

Below is a price comparison for a Neo4j Inc. commercial subscription package covering 3 production instances with 8 cores each. (3x8). The Neo4j Inc. commercial package is not a perpetual license, and the commercial EULA limits your use of Neo4j open source licenses in many ways once accepted. Notice that it also has unnecessary production elements which you are paying for as part of the subscription. Neo4j Inc's pricing can be found via a simple GSA Advantage search.

Neo4j Inc. Commercial Subscription (Annual Subscription)

Neo4j Enterprise Bundle – Standard cluster for enterprise applications that are used by more than one department (or by a larger department), or by customer-facing applications.

Neo4j Enterprise Bundle basic configuration includes:

- a. 3 Production Instances (up to 8 Cores per Instance).
- b. 3 Test Instances (no Core limit).
- c. Premium Support: 24 x 7 / 1-hour response time for Severity 1 issues, **email and phone**.
- d. Unlimited number of licensed developers.

iGov Inc's Government Development Package with Neo4j Enterprise

Comes with same physical Neo4j Enterprise software. Under open source license there are no limitations on how you use it. You have no limits on environments, number of instances, cores, etc!

Government Bundle for Neo4j Enterprise basic configuration includes:

- a. Unlimited instances with no core limits for any environment! (dev, test, staging, production, etc)
- c. Premium support and development services by iGov Inc. Unlike the Neo4j commercial package, we support your entire architecture not just Neo4j. (Neo4j, Elasticsearch, UI, Micro Services, etc..)
- d. No limitations on number of developers, etc.

\$25,000+

100% goes into development.

The minimum development package costs \$25,000. For comparison - you can choose the \$189,000 Development package option - where \$189,000 goes into consulting services at GSA approved rates.

Of course - you can choose how much you want to spend. We simply offer packages that parallel commercial subscription rates to help make procurement easier.

Neo4j Inc. Commercial Support vs iGov Inc. Development Package Comparison

So what exactly do you get with a Neo4j Inc. commercial subscription? You get the peace of mind knowing

Neo4j Inc. is there to assist with production support tickets if the vendor you purchased it from can not solve an issue on their own. This is not very useful when you are in development, using Neo4j for R & D, or do not have a mission critical Neo4j deployment.

Proven past performance and value supporting Neo4j Enterprise open source licensed distributions.

Our team has been providing Neo4j support to US Federal agencies for many years, and we now only offer commercial equivalent support packages for Neo4j Enterprise open source licensed distributions.

[Request Procurement Document Package \(mailto:neo4j@igovsol.com\)](mailto:neo4j@igovsol.com)

Our team is the same team that created Neo4j Enterprise Government Edition. Further, we are the same team that sold and supported every US Federal Government procurement of Neo4j Enterprise Government Edition up until its retirement in July 2017.

We only focus on only supporting 100% free and open source ONgDB Enterprise (<https://www.graphfoundation.org/projects/ongdb/>) & Neo4j Enterprise open source licensed distributions. Not only does this cut down on unnecessary commercial license costs, the open source licenses do not place any restrictions on the number of cluster instances or cores like the commercial licenses do.

Open source graph packages

Did you know that the Neo4j Enterprise commercial packages available from Neo4j Inc and their partners are essentially support offerings?

Are you aware that, unlike the commercial licensed options, the Neo4j Enterprise open source AGPL license does not place any restrictions on the number of cluster instances and cores?

iGov Inc's open source enterprise packages provide a better value than Neo4j Enterprise commercial support subscriptions because 100% of the cost goes to support and development services, not unnecessary and more restrictive commercial licenses.

If you do not need support for your ONgDB Enterprise or Neo4j Enterprise open source licensed distribution, then simply download ONgDB Enterprise (<https://www.graphfoundation.org/projects/ongdb/>) as a drop in replacement for an existing commercial licensed distribution of the same version number.

Know your options

It is important to know your options before you make any procurement decisions around Neo4j. The information below is a complete breakdown of the 3 main Neo4j offerings available including the free open source option. [\(index.html\)](#) Be aware that Neo4j Enterprise Edition is open source like its sibling, Neo4j Community edition. In fact, there is no reason you should be using the community edition. If you've chosen to use Neo4j open source, then you should use the enterprise edition under it's open source license.

The information below should provide you with a clear understanding of your options, so you can choose what's best for your agency.

Development Package Overview

The Government Development Packages are aimed at agencies who need help building a robust and scalable solution around Neo4j. Unlike the commercial production support subscriptions, 100% of the cost goes into consulting services that help you build out your solution.

All iGov Inc packages also include a suite of tools and services which are combined to address critical FISMA and accessibility requirements relating to Neo4j.

Customer Support

iGov Inc provides umbrella support across all the components of your Neo4j solution, including Neo4j itself. For example, a solution using Neo4j Enterprise, Apache Kafka, Elastic Search, and custom micro-service architecture components are all covered under the umbrella support provided with these packages. The Neo4j commercial support subscriptions only cover Neo4j Enterprise.

UI/UX Development

The development packages include UI and UX design services to assist developing everything from your dashboards and visualization. We ensure all development meets 508(c) requirements. We cover all modern web design frameworks including ReactJS and AngularJS. Furthermore, we provide a toolbox of open source visualization libraries and webapp starter projects to get your project up and running quickly. You can also add on UI packages such as Linkurious OGMA and Graphlytic Visualization tools and APIs.

Starter Projects and Toolsets

We provide a suite of starter projects (maven and gradle), templates, and tools to get your Neo4j projects off the ground quickly. Our Starters include Docker images, Microservice architecture components (api gateways, service registries, etc), UI and visualization components and more.

About GraphStack

GraphStack was created and is run by iGov Inc. We have no relationship with Neo4j Inc, the company who created and open sourced Neo4j.

What is GraphStack?

GraphStack is a development suite that allows teams to build large scale graph apps.

GraphStack leverages many different open source technologies allowing teams to build flexible analytic platforms with a graph focus.

The platform provides the developer tooling to build production ready SAAS alternatives to Neo4j Desktop and it's apps. It focuses on allowing teams to build and deploy scalable, enterprise analytic and graph applications inside an enterprise ecosystem.

It comes with growing suite of free services/apps including graph visualization apps (free alternative to Neo4j Bloom), cross platform data access auditing service, and platform level security which allows you to apply security across all data sources that make up your ecosystem.

GraphStack is being used in large production graph environments in the US Government.

More information is coming very soon.

Who is GraphStack for?

GraphStack is for anyone who had adopted Neo4j and plans on building a large scale graph solution with Neo4j Enterprise / ONgDB Enterprise, Elasticsearch, Microservices, and more.

GraphStack is not a hosted solution. It is a suite of developer tools, apis, and services that allow you to build production ready enterprise graph SAAS platforms.

I forgot to mention - everything that led up to them taking the ee code 'closed source' - (commons clause, etc) was not because of Amazon or some huge cloud provider. It was because of one person.

The story behind what lead up to that debacle is very interesting. There is an ongoing court case so I haven't been able to share much. It's got all the elements of a good mini series : lies, deception, fraud, greed.... things that will surprise many people once it is public.

They tried adding a 'commons clause' to AGPL which failed miserably as AGPL has terms stating you can't add further restrictions, finally they closed their AGPL enterprise code. Not because of Amazon but because of one single person / community activist. Interesting story!!

[@neo4j](#) however, deceived the community about how they could use their AGPL licensed product saying you couldn't use it in production , or for closed source projects, etc. Now they may face class action lawsuits, and possible criminal fraud charges relating to procurements.

ONgDB will always be open source. It is a fork of Neo4j core with ee code added back in. Neo4j Inc already showed they are willing to take their software closed when they closed the ee code, so there is nothing stopping them from doing the same with core.

You can use also your skills on [#OngDB](#) which forks [@neo4j](#) and adds enterprise features back into the distribution. It's adoption is growing, ever since Neo closed the enterprise source. So remember to put ONgDB on your resume too!

Ironically, I have uncovered fraud by [@neo4j](#) Inc using neo4j tech. Not public yet, but It will be public soon from an upcoming court case. Not a 'fraud ring', but fraud nonetheless. It would have taken ages to piece this together without Neo4j and a few other pieces of tech.

If you ever want to use causal clustering while staying 100% open source, you can do so with [#ONgDB](#)

(Neo4j core + enterprise features they removed when they closed Neo4j Enterprise edition at 3.5).

Just ensure you use the same version number as your current Neo4j version.

Neo4j Desktop vs Neo4j Server

Neo4j Graph Platform

stephanie (Stephanie) #1 November 16, 2018, 7:31pm

Do the terms of use for "neo4j Desktop" apply to the ONGDB server which I downloaded under AGPLv3 license? I read the Desktop terms carefully and they refer everywhere to "neo4j Desktop software". Has anybody encountered this issue? I am feeling really stupid for not thinking this through before downloading the Desktop Software, especially as database authentication keeps failing. Before I spend any more time troubleshooting, could someone indicate any features of Desktop that are really worth it (other than UI)? I am planning production, so the license is important to me. Thank you!

andrew.bowman (Andrew Bowman) #2 November 16, 2018, 10:47pm

Hi Stephanie,

You may want to review our [licensing page](#). In particular, for Neo4j Desktop:

Neo4j Desktop is the new mission control center for Developers. It's free with registration, and it includes a **free** development license for Enterprise Edition **allowing you to use Neo4j Enterprise on your local desktop for developing applications** .

Basically it's for local development only, Neo4j Desktop isn't intended or licensed for deployment or usage as a server version (we have the server versions of Neo4j Community and Enterprise for that instead). It can freely be used as a client to connect to a separate server deployment, however.

You may want to review the rest of the licensing page, as there are various scenarios which will allow free Neo4j Enterprise usage (see the FAQ for details).

stephanie (Stephanie) #3 November 17, 2018, 7:27pm

Thanks! I will try to get the Desktop version working a bit longer before I entirely give up!

Errors while building ONgDB

Open Native Graph DB (ONgDB) is a non-restrictive fork of Neo4j, the world's leading Graph Database. It is a high performance graph store with all the features expected of a mature and robust database, like a friendly query language, ACID transactions and high availability clustering. The programmer works with a flexible network structure of nodes and relationships rather than static tables — yet enjoys all the benefits of enterprise-quality database. For many applications, ONgDB offers orders of magnitude performance benefits compared to relational DBs.

I did a cd to ongdb-3.2.3/enterprise/neo4j-enterprise and did a mvn install but its failing

Loading large cypher file in Neo4J

Asked 7 months ago Active 7 months ago Viewed 196 times

I'm having some difficulty loading a Cypher file into Neo4J in Windows 10. The file in question is a 175 Mb .cql file filled with more than a million lines of nodes and edges (separated by semicolons) in the Cypher language -- CREATE [node], that sort of thing. For smaller items, I have been using an APOC command in the web browser:

```
call apoc.cypher.runFile('file:///<file path>')
```

but this is too slow for a million+ query file. I've created indexes for the nodes, and am currently running it through a command:

```
neo4j-shell -file <file path> -path localhost
```

but this is still slow. I was wondering, is there any way to speed up the intake?

Also, note that I am using an recent ONGDB build, rather than straight Neo4J; I do not believe this will make any substantial difference.

If you are ingesting into a new neo4j DB, you should consider refactoring the data out of it and using the [import command of neo4j-admin](#) tool to efficiently ingest the data.

If you are ingesting into an existing DB, you should consider refactoring the data and logic out of the CQL file and using [LOAD CSV](#).

I ended up ingesting it using cypher-shell. It's still slow, but at least it does finish. Using it requires one to first open a Neo4J console then, in a second command line, use:

```
type <filepath>\data.cql | bin\cypher-shell.bat -a localhost -u <user> -p <password> --fail-at-end
```

This works for Windows 10, although it does take a while.

Unable to connect to Neo4J/ONgDB Browser when port forwarding

Asked 7 months ago Active 7 months ago Viewed 115 times

I am running the ONgDB container as per [their Docker run command](#).

I have tested this locally on my laptop and it worked before, I was able to navigate to the graph browser and log in.

Now I am running this Graph in a server.

I did port forwarding to my laptop successfully, and am able to see ONgDB Browser in my laptop.

★ However I am unable to log in, I get the error: `ServiceUnavailable: WebSocket connection failure. Due to security constraints in your web browser, the reason for the failure is not available to this Neo4j Driver. Please use your browsers development console to determine the root cause of the failure. Common reasons inc...`

I found [Neo4J article](#) on how to resolve it.

I entered the ONgDB container filesystem and opened the `.conf` file, but there was no line to uncomment.

I tried to add the suggested line `dbms.connector.bolt.address=0.0.0.0:7687` but it does not work as well.

How can I enable ONgDB Docker container for remote access?

I figured out the problem, in Neo4J/ONgDB browser, it fills the database host with `localhost` by default.

You just have to fill it in with the server's IP there and it works.

Also, you can connect using a desktop Neo4J/ONgDB browser to a remote graph, its just like a database (RDBMS) where you can connect to it from a client running locally.

1 + GNU AFFERO GENERAL PUBLIC LICENSE

2 + Version 3, 19 November 2007

3 +

4 + Copyright (C) 2007 Free Software Foundation, Inc. <https://fsf.org/>

5 + Everyone is permitted to copy and distribute verbatim copies

6 + of this license document, but changing it is not allowed.

7 +

8 + Preamble

9 +

10 + The GNU Affero General Public License is a free, copyleft license for

11 + software and other kinds of works, specifically designed to ensure

12 + cooperation with the community in the case of network server software.

13 +

14 + The licenses for most software and other practical works are designed

15 + to take away your freedom to share and change the works. By contrast,

16 + our General Public Licenses are intended to guarantee your freedom to

17 + share and change all versions of a program--to make sure it remains free

18 + software for all its users.

19 +

20 + When we speak of free software, we are referring to freedom, not

21 + price. Our General Public Licenses are designed to make sure that you

22 + have the freedom to distribute copies of free software (and charge for

23 + them if you wish), that you receive source code or can get it if you

24 + want it, that you can change the software or use pieces of it in new

25 + free programs, and that you know you can do these things.

26 +

27 + Developers that use our General Public Licenses protect your rights

28 + with two steps: (1) assert copyright on the software, and (2) offer

29 + you this License which gives you legal permission to copy, distribute

30 + and/or modify the software.

31 +

32 + A secondary benefit of defending all users' freedom is that

33 + improvements made in alternate versions of the program, if they

34 + receive widespread use, become available for other developers to

35 + incorporate. Many developers of free software are heartened and

36 + encouraged by the resulting cooperation. However, in the case of

37 + software used on network servers, this result may fail to come about.

38 + The GNU General Public License permits making a modified version and

39 + letting the public access it on a server without ever releasing its

40 + source code to the public.

41 +

42 + The GNU Affero General Public License is designed specifically to

43 + ensure that, in such cases, the modified source code becomes available

44 + to the community. It requires the operator of a network server to

45 + provide the source code of the modified version running there to the

1/377

46 + users of that server. Therefore, public use of a modified version, on
 47 + a publicly accessible server, gives the public access to the source
 48 + code of the modified version.
 49 +
 50 + An older license, called the Affero General Public License and
 51 + published by Affero, was designed to accomplish similar goals. This is
 52 + a different license, not a version of the Affero GPL, but Affero has
 53 + released a new version of the Affero GPL which permits relicensing under
 54 + this license.
 55 +
 56 + The precise terms and conditions for copying, distribution and
 57 + modification follow.
 58 +
 59 + TERMS AND CONDITIONS
 60 +
 61 + 0. Definitions.
 62 +
 63 + "This License" refers to version 3 of the GNU Affero General Public License.
 64 +
 65 + "Copyright" also means copyright-like laws that apply to other kinds of
 66 + works, such as semiconductor masks.
 67 +
 68 + "The Program" refers to any copyrightable work licensed under this
 69 + license. Each licensee is addressed as "you". "Licensees" and
 70 + "recipients" may be individuals or organizations.
 71 +
 72 + To "modify" a work means to copy from or adapt all or part of the work
 73 + in a fashion requiring copyright permission, other than the making of an
 74 + exact copy. The resulting work is called a "modified version" of the
 75 + earlier work or a work "based on" the earlier work.
 76 +
 77 + A "covered work" means either the unmodified Program or a work based
 78 + on the Program.
 79 +
 80 + To "propagate" a work means to do anything with it that, without
 81 + permission, would make you directly or secondarily liable for
 82 + infringement under applicable copyright law, except executing it on a
 83 + computer or modifying a private copy. Propagation includes copying,
 84 + distribution (with or without modification), making available to the
 85 + public, and in some countries other activities as well.
 86 +
 87 + To "convey" a work means any kind of propagation that enables other
 88 + parties to make or receive copies. Mere interaction with a user through
 89 + a computer network, with no transfer of a copy, is not conveying.
 90 +
 91 + An interactive user interface displays "Appropriate Legal Notices"
 92 + to the extent that it includes a convenient and prominently visible
 93 + feature that (1) displays an appropriate copyright notice, and (2)
 94 + tells the user that there is no warranty for the work (except to the
 95 + extent that warranties are provided), that licensees may convey the
 96 + work under this License, and how to view a copy of this License. If
 97 + the interface presents a list of user commands or options, such as a
 98 + menu, a prominent item in the list meets this criterion.
 99 +
 100 + 1. Source Code.
 101 +
 102 + The "source code" for a work means the preferred form of the work
 103 + for making modifications to it. "Object code" means any non-source
 104 + form of a work.
 105 +
 106 + A "Standard Interface" means an interface that either is an official
 107 + standard defined by a recognized standards body, or, in the case of
 108 + interfaces specified for a particular programming language, one that

+ is widely used among developers working in that language.

+ The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

+ The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

+ The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

+ The Corresponding Source for a work in source code form is that same work.

+ 2. Basic Permissions.

+ All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

+ You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

+ Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

+ 3. Protecting Users' Legal Rights From Anti-Circumvention Law.

+ No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or

172 + similar laws prohibiting or restricting circumvention of such
173 + measures.
174 +
175 + When you convey a covered work, you waive any legal power to forbid
176 + circumvention of technological measures to the extent such circumvention
177 + is effected by exercising rights under this License with respect to
178 + the covered work, and you disclaim any intention to limit operation or
179 + modification of the work as a means of enforcing, against the work's
180 + users, your or third parties' legal rights to forbid circumvention of
181 + technological measures.
182 +
183 + 4. Conveying Verbatim Copies.
184 +
185 + You may convey verbatim copies of the Program's source code as you
186 + receive it, in any medium, provided that you conspicuously and
187 + appropriately publish on each copy an appropriate copyright notice;
188 + keep intact all notices stating that this License and any
189 + non-permissive terms added in accord with section 7 apply to the code;
190 + keep intact all notices of the absence of any warranty; and give all
191 + recipients a copy of this License along with the Program.
192 +
193 + You may charge any price or no price for each copy that you convey,
194 + and you may offer support or warranty protection for a fee.
195 +
196 + 5. Conveying Modified Source Versions.
197 +
198 + You may convey a work based on the Program, or the modifications to
199 + produce it from the Program, in the form of source code under the
200 + terms of section 4, provided that you also meet all of these conditions:
201 +
202 + a) The work must carry prominent notices stating that you modified
203 + it, and giving a relevant date.
204 +
205 + b) The work must carry prominent notices stating that it is
206 + released under this License and any conditions added under section
207 + 7. This requirement modifies the requirement in section 4 to
208 + "keep intact all notices".
209 +
210 + c) You must license the entire work, as a whole, under this
211 + License to anyone who comes into possession of a copy. This
212 + License will therefore apply, along with any applicable section 7
213 + additional terms, to the whole of the work, and all its parts,
214 + regardless of how they are packaged. This License gives no
215 + permission to license the work in any other way, but it does not
216 + invalidate such permission if you have separately received it.
217 +
218 + d) If the work has interactive user interfaces, each must display
219 + Appropriate Legal Notices; however, if the Program has interactive
220 + interfaces that do not display Appropriate Legal Notices, your
221 + work need not make them do so.
222 +
223 + A compilation of a covered work with other separate and independent
224 + works, which are not by their nature extensions of the covered work,
225 + and which are not combined with it such as to form a larger program,
226 + in or on a volume of a storage or distribution medium, is called an
227 + "aggregate" if the compilation and its resulting copyright are not
228 + used to limit the access or legal rights of the compilation's users
229 + beyond what the individual works permit. Inclusion of a covered work
230 + in an aggregate does not cause this License to apply to the other
231 + parts of the aggregate.
232 +
233 + 6. Conveying Non-Source Forms.
234 +

235 + You may convey a covered work in object code form under the terms
236 + of sections 4 and 5, provided that you also convey the
237 + machine-readable Corresponding Source under the terms of this License,
238 + in one of these ways:
239 +
240 + a) Convey the object code in, or embodied in, a physical product
241 + (including a physical distribution medium), accompanied by the
242 + Corresponding Source fixed on a durable physical medium
243 + customarily used for software interchange.
244 +
245 + b) Convey the object code in, or embodied in, a physical product
246 + (including a physical distribution medium), accompanied by a
247 + written offer, valid for at least three years and valid for as
248 + long as you offer spare parts or customer support for that product
249 + model, to give anyone who possesses the object code either (1) a
250 + copy of the Corresponding Source for all the software in the
251 + product that is covered by this License, on a durable physical
252 + medium customarily used for software interchange, for a price no
253 + more than your reasonable cost of physically performing this
254 + conveying of source, or (2) access to copy the
255 + Corresponding Source from a network server at no charge.
256 +
257 + c) Convey individual copies of the object code with a copy of the
258 + written offer to provide the Corresponding Source. This
259 + alternative is allowed only occasionally and noncommercially, and
260 + only if you received the object code with such an offer, in accord
261 + with subsection 6b.
262 +
263 + d) Convey the object code by offering access from a designated
264 + place (gratis or for a charge), and offer equivalent access to the
265 + Corresponding Source in the same way through the same place at no
266 + further charge. You need not require recipients to copy the
267 + Corresponding Source along with the object code. If the place to
268 + copy the object code is a network server, the Corresponding Source
269 + may be on a different server (operated by you or a third party)
270 + that supports equivalent copying facilities, provided you maintain
271 + clear directions next to the object code saying where to find the
272 + Corresponding Source. Regardless of what server hosts the
273 + Corresponding Source, you remain obligated to ensure that it is
274 + available for as long as needed to satisfy these requirements.
275 +
276 + e) Convey the object code using peer-to-peer transmission, provided
277 + you inform other peers where the object code and Corresponding
278 + Source of the work are being offered to the general public at no
279 + charge under subsection 6d.
280 +
281 + A separable portion of the object code, whose source code is excluded
282 + from the Corresponding Source as a System Library, need not be
283 + included in conveying the object code work.
284 +
285 + A "User Product" is either (1) a "consumer product", which means any
286 + tangible personal property which is normally used for personal, family,
287 + or household purposes, or (2) anything designed or sold for incorporation
288 + into a dwelling. In determining whether a product is a consumer product,
289 + doubtful cases shall be resolved in favor of coverage. For a particular
290 + product received by a particular user, "normally used" refers to a
291 + typical or common use of that class of product, regardless of the status
292 + of the particular user or of the way in which the particular user
293 + actually uses, or expects or is expected to use, the product. A product
294 + is a consumer product regardless of whether the product has substantial
295 + commercial, industrial or non-consumer uses, unless such uses represent
296 + the only significant mode of use of the product.
297 +

298 + "Installation Information" for a User Product means any methods,
299 + procedures, authorization keys, or other information required to install
300 + and execute modified versions of a covered work in that User Product from
301 + a modified version of its Corresponding Source. The information must
302 + suffice to ensure that the continued functioning of the modified object
303 + code is in no case prevented or interfered with solely because
304 + modification has been made.
305 +
306 + If you convey an object code work under this section in, or with, or
307 + specifically for use in, a User Product, and the conveying occurs as
308 + part of a transaction in which the right of possession and use of the
309 + User Product is transferred to the recipient in perpetuity or for a
310 + fixed term (regardless of how the transaction is characterized), the
311 + Corresponding Source conveyed under this section must be accompanied
312 + by the Installation Information. But this requirement does not apply
313 + if neither you nor any third party retains the ability to install
314 + modified object code on the User Product (for example, the work has
315 + been installed in ROM).
316 +
317 + The requirement to provide Installation Information does not include a
318 + requirement to continue to provide support service, warranty, or updates
319 + for a work that has been modified or installed by the recipient, or for
320 + the User Product in which it has been modified or installed. Access to a
321 + network may be denied when the modification itself materially and
322 + adversely affects the operation of the network or violates the rules and
323 + protocols for communication across the network.
324 +
325 + Corresponding Source conveyed, and Installation Information provided,
326 + in accord with this section must be in a format that is publicly
327 + documented (and with an implementation available to the public in
328 + source code form), and must require no special password or key for
329 + unpacking, reading or copying.
330 +
331 + 7. Additional Terms.
332 +
333 + "Additional permissions" are terms that supplement the terms of this
334 + License by making exceptions from one or more of its conditions.
335 + Additional permissions that are applicable to the entire Program shall
336 + be treated as though they were included in this License, to the extent
337 + that they are valid under applicable law. If additional permissions
338 + apply only to part of the Program, that part may be used separately
339 + under those permissions, but the entire Program remains governed by
340 + this License without regard to the additional permissions.
341 +
342 + When you convey a copy of a covered work, you may at your option
343 + remove any additional permissions from that copy, or from any part of
344 + it. (Additional permissions may be written to require their own
345 + removal in certain cases when you modify the work.) You may place
346 + additional permissions on material, added by you to a covered work,
347 + for which you have or can give appropriate copyright permission.
348 +
349 + Notwithstanding any other provision of this License, for material you
350 + add to a covered work, you may (if authorized by the copyright holders of
351 + that material) supplement the terms of this License with terms:
352 +
353 + a) Disclaiming warranty or limiting liability differently from the
354 + terms of sections 15 and 16 of this License; or
355 +
356 + b) Requiring preservation of specified reasonable legal notices or
357 + author attributions in that material or in the Appropriate Legal
358 + Notices displayed by works containing it; or
359 +
360 + c) Prohibiting misrepresentation of the origin of that material, or

361 + requiring that modified versions of such material be marked in
362 + reasonable ways as different from the original version; or
363 +
364 + d) Limiting the use for publicity purposes of names of licensors or
365 + authors of the material; or
366 +
367 + e) Declining to grant rights under trademark law for use of some
368 + trade names, trademarks, or service marks; or
369 +
370 + f) Requiring indemnification of licensors and authors of that
371 + material by anyone who conveys the material (or modified versions of
372 + it) with contractual assumptions of liability to the recipient, for
373 + any liability that these contractual assumptions directly impose on
374 + those licensors and authors.
375 +
376 + All other non-permissive additional terms are considered "further
377 + restrictions" within the meaning of section 10. If the Program as you
378 + received it, or any part of it, contains a notice stating that it is
379 + governed by this license along with a term that is a further
380 + restriction, you may remove that term. If a license document contains
381 + a further restriction but permits relicensing or conveying under this
382 + License, you may add to a covered work material governed by the terms
383 + of that license document, provided that the further restriction does
384 + not survive such relicensing or conveying.
385 +
386 + If you add terms to a covered work in accord with this section, you
387 + must place, in the relevant source files, a statement of the
388 + additional terms that apply to those files, or a notice indicating
389 + where to find the applicable terms.
390 +
391 + Additional terms, permissive or non-permissive, may be stated in the
392 + form of a separately written license, or stated as exceptions;
393 + the above requirements apply either way.
394 +
395 + 8. Termination.
396 +
397 + You may not propagate or modify a covered work except as expressly
398 + provided under this License. Any attempt otherwise to propagate or
399 + modify it is void, and will automatically terminate your rights under
400 + this License (including any patent licenses granted under the third
401 + paragraph of section 11).
402 +
403 + However, if you cease all violation of this License, then your
404 + license from a particular copyright holder is reinstated (a)
405 + provisionally, unless and until the copyright holder explicitly and
406 + finally terminates your license, and (b) permanently, if the copyright
407 + holder fails to notify you of the violation by some reasonable means
408 + prior to 60 days after the cessation.
409 +
410 + Moreover, your license from a particular copyright holder is
411 + reinstated permanently if the copyright holder notifies you of the
412 + violation by some reasonable means, this is the first time you have
413 + received notice of violation of this License (for any work) from that
414 + copyright holder, and you cure the violation prior to 30 days after
415 + your receipt of the notice.
416 +
417 + Termination of your rights under this section does not terminate the
418 + licenses of parties who have received copies or rights from you under
419 + this License. If your rights have been terminated and not permanently
420 + reinstated, you do not qualify to receive new licenses for the same
421 + material under section 10.
422 +
423 + 9. Acceptance Not Required for Having Copies.

424 +
425 + You are not required to accept this License in order to receive or
426 + run a copy of the Program. Ancillary propagation of a covered work
427 + occurring solely as a consequence of using peer-to-peer transmission
428 + to receive a copy likewise does not require acceptance. However,
429 + nothing other than this License grants you permission to propagate or
430 + modify any covered work. These actions infringe copyright if you do
431 + not accept this License. Therefore, by modifying or propagating a
432 + covered work, you indicate your acceptance of this License to do so.
433 +
434 + 10. Automatic Licensing of Downstream Recipients.
435 +
436 + Each time you convey a covered work, the recipient automatically
437 + receives a license from the original licensors, to run, modify and
438 + propagate that work, subject to this License. You are not responsible
439 + for enforcing compliance by third parties with this License.
440 +
441 + An "entity transaction" is a transaction transferring control of an
442 + organization, or substantially all assets of one, or subdividing an
443 + organization, or merging organizations. If propagation of a covered
444 + work results from an entity transaction, each party to that
445 + transaction who receives a copy of the work also receives whatever
446 + licenses to the work the party's predecessor in interest had or could
447 + give under the previous paragraph, plus a right to possession of the
448 + Corresponding Source of the work from the predecessor in interest, if
449 + the predecessor has it or can get it with reasonable efforts.
450 +
451 + You may not impose any further restrictions on the exercise of the
452 + rights granted or affirmed under this License. For example, you may
453 + not impose a license fee, royalty, or other charge for exercise of
454 + rights granted under this License, and you may not initiate litigation
455 + (including a cross-claim or counterclaim in a lawsuit) alleging that
456 + any patent claim is infringed by making, using, selling, offering for
457 + sale, or importing the Program or any portion of it.
458 +
459 + 11. Patents.
460 +
461 + A "contributor" is a copyright holder who authorizes use under this
462 + License of the Program or a work on which the Program is based. The
463 + work thus licensed is called the contributor's "contributor version".
464 +
465 + A contributor's "essential patent claims" are all patent claims
466 + owned or controlled by the contributor, whether already acquired or
467 + hereafter acquired, that would be infringed by some manner, permitted
468 + by this License, of making, using, or selling its contributor version,
469 + but do not include claims that would be infringed only as a
470 + consequence of further modification of the contributor version. For
471 + purposes of this definition, "control" includes the right to grant
472 + patent sublicenses in a manner consistent with the requirements of
473 + this License.
474 +
475 + Each contributor grants you a non-exclusive, worldwide, royalty-free
476 + patent license under the contributor's essential patent claims, to
477 + make, use, sell, offer for sale, import and otherwise run, modify and
478 + propagate the contents of its contributor version.
479 +
480 + In the following three paragraphs, a "patent license" is any express
481 + agreement or commitment, however denominated, not to enforce a patent
482 + (such as an express permission to practice a patent or covenant not to
483 + sue for patent infringement). To "grant" such a patent license to a
484 + party means to make such an agreement or commitment not to enforce a
485 + patent against the party.
486 +

487 + If you convey a covered work, knowingly relying on a patent license,
488 + and the Corresponding Source of the work is not available for anyone
489 + to copy, free of charge and under the terms of this License, through a
490 + publicly available network server or other readily accessible means,
491 + then you must either (1) cause the Corresponding Source to be so
492 + available, or (2) arrange to deprive yourself of the benefit of the
493 + patent license for this particular work, or (3) arrange, in a manner
494 + consistent with the requirements of this License, to extend the patent
495 + license to downstream recipients. "Knowingly relying" means you have
496 + actual knowledge that, but for the patent license, your conveying the
497 + covered work in a country, or your recipient's use of the covered work
498 + in a country, would infringe one or more identifiable patents in that
499 + country that you have reason to believe are valid.
500 +
501 + If, pursuant to or in connection with a single transaction or
502 + arrangement, you convey, or propagate by procuring conveyance of, a
503 + covered work, and grant a patent license to some of the parties
504 + receiving the covered work authorizing them to use, propagate, modify
505 + or convey a specific copy of the covered work, then the patent license
506 + you grant is automatically extended to all recipients of the covered
507 + work and works based on it.
508 +
509 + A patent license is "discriminatory" if it does not include within
510 + the scope of its coverage, prohibits the exercise of, or is
511 + conditioned on the non-exercise of one or more of the rights that are
512 + specifically granted under this License. You may not convey a covered
513 + work if you are a party to an arrangement with a third party that is
514 + in the business of distributing software, under which you make payment
515 + to the third party based on the extent of your activity of conveying
516 + the work, and under which the third party grants, to any of the
517 + parties who would receive the covered work from you, a discriminatory
518 + patent license (a) in connection with copies of the covered work
519 + conveyed by you (or copies made from those copies), or (b) primarily
520 + for and in connection with specific products or compilations that
521 + contain the covered work, unless you entered into that arrangement,
522 + or that patent license was granted, prior to 28 March 2007.
523 +
524 + Nothing in this License shall be construed as excluding or limiting
525 + any implied license or other defenses to infringement that may
526 + otherwise be available to you under applicable patent law.
527 +
528 + 12. No Surrender of Others' Freedom.
529 +
530 + If conditions are imposed on you (whether by court order, agreement or
531 + otherwise) that contradict the conditions of this License, they do not
532 + excuse you from the conditions of this License. If you cannot convey a
533 + covered work so as to satisfy simultaneously your obligations under this
534 + License and any other pertinent obligations, then as a consequence you may
535 + not convey it at all. For example, if you agree to terms that obligate you
536 + to collect a royalty for further conveying from those to whom you convey
537 + the Program, the only way you could satisfy both those terms and this
538 + License would be to refrain entirely from conveying the Program.
539 +
540 + 13. Remote Network Interaction; Use with the GNU General Public License.
541 +
542 + Notwithstanding any other provision of this License, if you modify the
543 + Program, your modified version must prominently offer all users
544 + interacting with it remotely through a computer network (if your version
545 + supports such interaction) an opportunity to receive the Corresponding
546 + Source of your version by providing access to the Corresponding Source
547 + from a network server at no charge, through some standard or customary
548 + means of facilitating copying of software. This Corresponding Source
549 + shall include the Corresponding Source for any work covered by version 3

550 + of the GNU General Public License that is incorporated pursuant to the
551 + following paragraph.
552 +
553 + Notwithstanding any other provision of this License, you have
554 + permission to link or combine any covered work with a work licensed
555 + under version 3 of the GNU General Public License into a single
556 + combined work, and to convey the resulting work. The terms of this
557 + License will continue to apply to the part which is the covered work,
558 + but the work with which it is combined will remain governed by version
559 + 3 of the GNU General Public License.
560 +
561 + 14. Revised Versions of this License.
562 +
563 + The Free Software Foundation may publish revised and/or new versions of
564 + the GNU Affero General Public License from time to time. Such new versions
565 + will be similar in spirit to the present version, but may differ in detail to
566 + address new problems or concerns.
567 +
568 + Each version is given a distinguishing version number. If the
569 + Program specifies that a certain numbered version of the GNU Affero General
570 + Public license "or any later version" applies to it, you have the
571 + option of following the terms and conditions either of that numbered
572 + version or of any later version published by the Free Software
573 + Foundation. If the Program does not specify a version number of the
574 + GNU Affero General Public License, you may choose any version ever published
575 + by the Free Software Foundation.
576 +
577 + If the Program specifies that a proxy can decide which future
578 + versions of the GNU Affero General Public License can be used, that proxy's
579 + public statement of acceptance of a version permanently authorizes you
580 + to choose that version for the Program.
581 +
582 + Later license versions may give you additional or different
583 + permissions. However, no additional obligations are imposed on any
584 + author or copyright holder as a result of your choosing to follow a
585 + later version.
586 +
587 + 15. Disclaimer of Warranty.
588 +
589 + THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY
590 + APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT
591 + HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY
592 + OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO,
593 + THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR
594 + PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM
595 + IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF
596 + ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
597 +
598 + 16. Limitation of Liability.
599 +
600 + IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
601 + WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS
602 + THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
603 + GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE
604 + USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF
605 + DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD
606 + PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS),
607 + EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF
608 + SUCH DAMAGES.
609 +
610 + 17. Interpretation of Sections 15 and 16.
611 +
612 + If the disclaimer of warranty and limitation of liability provided

613 + above cannot be given local legal effect according to their terms,
614 + reviewing courts shall apply local law that most closely approximates
615 + an absolute waiver of all civil liability in connection with the
616 + Program, unless a warranty or assumption of liability accompanies a
617 + copy of the Program in return for a fee.
618 +
619 + END OF TERMS AND CONDITIONS
620 +
621 + How to Apply These Terms to Your New Programs
622 +
623 + If you develop a new program, and you want it to be of the greatest
624 + possible use to the public, the best way to achieve this is to make it
625 + free software which everyone can redistribute and change under these terms.
626 +
627 + To do so, attach the following notices to the program. It is safest
628 + to attach them to the start of each source file to most effectively
629 + state the exclusion of warranty; and each file should have at least
630 + the "copyright" line and a pointer to where the full notice is found.
631 +
632 + <one line to give the program's name and a brief idea of what it does.>
633 + Copyright (C) <year> <name of author>
634 +
635 + This program is free software: you can redistribute it and/or modify
636 + it under the terms of the GNU Affero General Public License as published by
637 + the Free Software Foundation, either version 3 of the License, or
638 + (at your option) any later version.
639 +
640 + This program is distributed in the hope that it will be useful,
641 + but WITHOUT ANY WARRANTY; without even the implied warranty of
642 + MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
643 + GNU Affero General Public License for more details.
644 +
645 + You should have received a copy of the GNU Affero General Public License
646 + along with this program. If not, see <<https://www.gnu.org/licenses/>>.
647 +
648 + Also add information on how to contact you by electronic and paper mail.
649 +
650 + If your software can interact with users remotely through a computer
651 + network, you should also make sure that it provides a way for users to
652 + get its source. For example, if your program is a web application, its
653 + interface could display a "Source" link that leads users to an archive
654 + of the code. There are many ways you could offer source, and different
655 + solutions will be better for different programs; see section 13 for the
656 + specific requirements.
657 +
658 + You should also get your employer (if you work as a programmer) or school,
659 + if any, to sign a "copyright disclaimer" for the program, if necessary.
660 + For more information on this, and how to apply and follow the GNU AGPL, see

+ The GNU Affero General Public License is a free, copyleft license for

+ software and other kinds of works, specifically designed to ensure

cooperation with the community in the case of network server software.

- The licenses for most software and other practical works are

- designed to take away your freedom to share and change the works. By

- contrast, our General Public Licenses are intended to guarantee your

- freedom to share and change all versions of a program--to make sure it

- remains free software for all its users.

- When we speak of free software, we are referring to freedom, not

+ When we speak of free software, we are referring to freedom, not

price. Our General Public Licenses are designed to make sure that you

have the freedom to distribute copies of free software (and charge for

them if you wish), that you receive source code or can get it if you

want it, that you can change the software or use pieces of it in new

free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights

+ Developers that use our General Public Licenses protect your rights

with two steps: (1) assert copyright on the software, and (2) offer

you this License which gives you legal permission to copy, distribute

and/or modify the software.

- A secondary benefit of defending all users' freedom is that

+ A secondary benefit of defending all users' freedom is that

improvements made in alternate versions of the program, if they

receive widespread use, become available for other developers to

incorporate. Many developers of free software are heartened and

letting the public access it on a server without ever releasing its

source code to the public.

- The GNU Affero General Public License is designed specifically to

+ The GNU Affero General Public License is designed specifically to

ensure that, in such cases, the modified source code becomes available

to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

- An older license, called the Affero General Public License and

+ An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license.

This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

- You may make, run and propagate covered works that you do not

arrangement, you convey, or propagate by procuring conveyance of, a
covered work, and grant a patent license to some of the parties
receiving the covered work authorizing them to use, propagate, modify
or convey a specific copy of the covered work, then the patent license
you grant is automatically extended to all recipients of the covered

work and works based on it.

+ The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users.

- When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License which gives you legal permission to copy, distribute and/or modify the software.

- A secondary benefit of defending all users' freedom is that improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

- The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

- An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license.

- The precise terms and conditions for copying, distribution and modification follow.

11 + software and other kinds of works, specifically designed to ensure

28 12 cooperation with the community in the case of network server software.

20 + When we speak of free software, we are referring to freedom, not

37 21 price. Our General Public Licenses are designed to make sure that you

38 22 have the freedom to distribute copies of free software (and charge for

39 23 them if you wish), that you receive source code or can get it if you

40 24 want it, that you can change the software or use pieces of it in new

41 25 free programs, and that you know you can do these things.

+ The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users.

- When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License which gives you legal permission to copy, distribute and/or modify the software.

- A secondary benefit of defending all users' freedom is that improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

- The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

- An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license.

- The precise terms and conditions for copying, distribution and modification follow.

- + A secondary benefit of defending all users' freedom is that

improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

- The GNU Affero General Public License is designed specifically to
 + The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

 + "The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

- To "modify" a work means to copy from or adapt all or part of the work
 + To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

- A "covered work" means either the unmodified Program or a work based
 + A "covered work" means either the unmodified Program or a work based on the Program.

- To "propagate" a work means to do anything with it that, without
 + To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the

public, and in some countries other activities as well.

- To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

- An interactive user interface displays "Appropriate Legal Notices"
+ An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

- 1. Source Code.
+ 1. Source Code.

- The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

- A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

- The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

- The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's such as by intimate data communication or control flow between those subprograms and other parts of the work.

- The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

+ 2. Basic Permissions.

- All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its

content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

10 + The GNU Affero General Public License is a free, copyleft license for

11 + software and other kinds of works, specifically designed to ensure

28 12 cooperation with the community in the case of network server software.

30 - The licenses for most software and other practical works are

31 - designed to take away your freedom to share and change the works. By

20 + When we speak of free software, we are referring to freedom, not

37 21 price. Our General Public Licenses are designed to make sure that you

38 22 have the freedom to distribute copies of free software (and charge for

39 23 them if you wish), that you receive source code or can get it if you

40 24 want it, that you can change the software or use pieces of it in new

41 25 free programs, and that you know you can do these things.

42 26

43 - Developers that use our General Public Licenses protect your rights

27 + Developers that use our General Public Licenses protect your rights

32 + A secondary benefit of defending all users' freedom is that

49 33 improvements made in alternate versions of the program, if they

50 34 receive widespread use, become available for other developers to

60 44 to the community. It requires the operator of a network server to

61 45 provide the source code of the modified version running there to the

62 46 users of that server. Therefore, public use of a modified version, on

have the freedom to distribute copies of free software (and charge for

them if you wish), that you receive source code or can get it if you

want it, that you can change the software or use pieces of it in new

free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights

+ Developers that use our General Public Licenses protect your rights

+ The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users.

- When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License which gives you legal permission to copy, distribute and/or modify the software.

- A secondary benefit of defending all users' freedom is that improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

- The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

- An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license.

- The precise terms and conditions for copying, distribution and modification follow.

improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

 + To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the

public, and in some countries other activities as well.

- To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

- The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

- A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

- The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

- The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's such as by intimate data communication or control flow between those subprograms and other parts of the work.

40 24 want it, that you can change the software or use pieces of it in new

By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users.

+ The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, our General Public Licenses are intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users.

- When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License which gives you legal permission to copy, distribute and/or modify the software.

- A secondary benefit of defending all users' freedom is that improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

- The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

- An older license, called the Affero General Public License and published by Affero, was designed to accomplish similar goals. This is a different license, not a version of the Affero GPL, but Affero has released a new version of the Affero GPL which permits relicensing under this license.

- The precise terms and conditions for copying, distribution and modification follow.

 cooperation with the community in the case of network server software.

- The licenses for most software and other practical works are
 - designed to take away your freedom to share and change the works. By

 + When we speak of free software, we are referring to freedom, not
 price. Our General Public Licenses are designed to make sure that you
 have the freedom to distribute copies of free software (and charge for
 them if you wish), that you receive source code or can get it if you
 want it, that you can change the software or use pieces of it in new
 free programs, and that you know you can do these things.

- Developers that use our General Public Licenses protect your rights
 + Developers that use our General Public Licenses protect your rights
 with two steps: (1) assert copyright on the software, and (2) offer
 you this License which gives you legal permission to copy, distribute
 and/or modify the software.

- A secondary benefit of defending all users' freedom is that
 + A secondary benefit of defending all users' freedom is that

improvements made in alternate versions of the program, if they receive widespread use, become available for other developers to incorporate. Many developers of free software are heartened and letting the public access it on a server without ever releasing its source code to the public.

- The GNU Affero General Public License is designed specifically to
+ The GNU Affero General Public License is designed specifically to ensure that, in such cases, the modified source code becomes available to the community. It requires the operator of a network server to provide the source code of the modified version running there to the users of that server. Therefore, public use of a modified version, on a publicly accessible server, gives the public access to the source code of the modified version.

This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

Special thanks to @jmsuhy for all the efforts in getting this release out. Very excited about the #neo4j community efforts to move the mission forward to keep neo4j open source. Thanks everyone!

#ONgDB 3.5.11 support release is out: graphfoundation.org/projects/ongdb/

What is ONgDB?

Open Native Graph DB is an open source fork of #Neo4j, that picks up prior to Neo4j, Inc.'s removal of enterprise code from the main Github repository.

The idea that single vendor open source is bad is hogwash. If you want to make sure the only profits from open source flow to huge companies or their chosen consortium, keep spreading that bullshit. Nobody else can afford to even play, much less win.

2 4 28

Adam Jacob @adamhjk · Mar 11

It sets the whole game up so only those with the most can have a reasonable shot at running a business. If you can't/won't make it possible for not only your technology, but your brand, to be diluted.

1 1 5

Adam Jacob @adamhjk · Mar 11

This is not a problem for Google, Microsoft, Amazon, etc. They all have massive, established brands on proprietary software. They can both afford to give the trademarks away, and have a path to easy, widespread monetization.

1 1 4

Adam Jacob @adamhjk · Mar 11

The only fair/safe way to do this is Apache style - you need a foundation dedicated to the public interest. Because then, at least, you can be sure the software has an institution that is at least theoretically aligned with fairness.

3 4 7

Jim Dowling @jim_dowling · Mar 12

Apache is dead for new enterprise open-source projects. Flink, Spark, Kafka, Hadoop, etc - all have been moved towards a proprietary model by the backing vendor (except Flink, who cashed in) as AWS were out-competing them on AWS. So, go it your own. AGPL-V3 it.

1 2

Matthew S. Wilson @msw_ · Mar 13

I admit I'm not as close to these software packages (they live a bit up the stack from where I do). But it sure seems like the core @apachekafka development is going on very strongly at the ASF. And it seems Confluent is committed to that community?

Companies that want to be the point of origin / control for open source or source-available software will (and have) distanced themselves from the ASF. It makes sense, and is appropriate that they do. Because Apache projects need to be free from undue commercial influence.

Non evidence based intuition - or slight of hand with language? The companies may die, but their open-source products live on: MySQL, Redhat, Elastic, Mongo, Neo4J, Redis (Labs). You are here on Twitter, paid by your employer to bash AGL-v3. AWS profits from Apachev2, not AGPLv3

1

All of those companies (Redis maybe excepted, sort of) are single company owned open-source software platforms. And people do use the open-source version to build businesses - they haven't fully excluded that, but they ensure they also make money - c.f., Data Artisans/Flink.

Lots of variation in companies and their approach, in particular to how outside contributions are handled and what (if any) exclusionary tactics are used. Requiring additional rights via a contributor agreement that go beyond what is granted in an OSS license is a talltale to me.

 fraud nonetheless. It would have taken ages to piece
 this together without Neo4j and a few other pieces of

You may not be so proud once you learn how a few bad apples at your company may have jeopardized everything you worked so hard to build. I think @neo4j Inc will face criminal fraud charges and class action lawsuits around the open-source licensing deception.

1

John Mark Suhy @jmsuhy · Mar 25

Making these statements about fraud would be quite foolish financially, if they could not be backed up. Too bad a lot of you are in the dark on this subject right now, I am guessing that will change soon.

Re: Mr. Suhy's Misuse of Social Media

Dear Adron:

I am writing in regards to several outstanding issues relating to iGov's website and John Mark Suhy's activity on Twitter.

First, we note that iGov maintains Neo4j pricing information on its website (<https://blog.igovsol.com/2018/01/10/Neo4j-Commercial-Prices.html>). As you can see from Neo4j's recent document production, this pricing information is outdated and inaccurate. See, e.g., N4J_015184, N4J_015251. As a result, iGov's maintenance of this pricing information and Mr. Suhy's repeated public references thereto is misleading to potential purchasers of Neo4j®-branded software. See, e.g., N4J_015034, N4J_015082.

Second, I had spoken to you several months ago about Mr. Suhy's misadventures on Twitter. It appears Mr. Suhy is continuing to make false and misleading representations about Neo4j and seeking to damage Neo4j's reputation with unsubstantiated false accusations of fraud and criminal conduct. Here are a few examples of Mr. Suhy's recent Tweets:

<https://mobile.twitter.com/jmsuhy/status/1222537798491701248>

Adron W. Beene
May 27, 2020
Page 2

<https://mobile.twitter.com/jmsuhy/status/1245903648544219136>

<https://twitter.com/jmsuhy/status/1238510720557465601>

While we appreciate your client's wish to mount a vigorous defense *in this litigation*, Mr. Suhy's attempt to engage in self-help by making defamatory statements to the general public about Neo4j on social media is neither appropriate nor subject to the litigation privilege. See *Abuemeira v. Stephens*, 246 Cal.App.4th 1291, 1299 (2016) ("communications to the general public through the Internet and the media are not protected by the litigation privilege."); *Rothman v. Jackson* 49 Cal.App.4th 1134, 1141 (1996) (litigation privilege does not extend to "litigating in the press" because "it would serve no purpose but to provide immunity to those who would inflict upon our system of justice the damage which litigating in the press generally causes: poisoning of jury pools and bringing disrepute upon both the judiciary and the bar").

More importantly, we are unaware of any confidential documents or "neo4j tech" that reflect any alleged criminal fraudulent conduct by Neo4j, and no such documents or evidence have been identified by Defendants in their responses to Neo4j's discovery seeking the factual basis for their counterclaims and affirmative defenses. Indeed, while Defendants assert that Neo4j's addition of the Commons Clause to the AGLPv3 violates

Adron W. Beene
May 27, 2020
Page 3

the terms thereof, this is a question of contractual interpretation that does not amount to civil fraud, let alone “criminal fraud” as Mr. Suhy repeatedly asserts on Twitter. Mr. Suhy’s statements are thus false and defamatory, and may taint the potential jury pool. Accordingly, please confirm that Mr. Suhy will delete the above and similar Tweets, as well as will cease from making future inaccurate statements along these lines.

Mr. Suhy also appears to be cyber-stalking Neo4j employees:

<https://mobile.twitter.com/jmsuhy/status/1215068561326137344>

<https://mobile.twitter.com/jmsuhy/status/1220883743302475776>

Adron W. Beene
May 27, 2020
Page 4

<https://twitter.com/jmsuhy/status/1255881207193178115>

Again, there appears to be no factual basis for making these statements. It is also entirely improper for Mr. Suhy to attempt to intimidate and harass Neo4j employees. Thus, please confirm that Mr. Suhy will delete these Tweets and cease cyberstalking Neo4j employees on Twitter and other social media.

Adron W. Beene
May 27, 2020
Page 5

Lastly, it appears that Mr. Suhy is making similar false and misleading representations to Neo4j's actual and potential customers about this litigation. For example, on February 22, 2020, Mr. Suhy sent an email to a Neo4j employee and copied several employees of Johnson Controls wherein he stated:

you may not be aware of this yet but there is an upcoming court case in the US, which is going to expose Neo4j's deception on this topic, and it is starting to look like it may lead to possible criminal fraud charges and class action lawsuits against Neo4j Inc.

See N4J_014700. While Mr. Suhy may arguably cite to what is in the public court record in relation to the underlying litigation, he cannot make false and inflammatory statements to potential customers concerning speculative "criminal fraud charges and class action lawsuits."¹

This email exchange also highlights Defendants' failure to comply with their continuing disclosure and discovery obligations. Given this email was not produced by Defendants (along with Mr. Suhy's similar statements on Twitter), there is reason to believe that Mr. Suhy has engaged in similar communications with potential customers (without copying Neo4j) that Defendants have failed to produce, despite Neo4j previously propounding at least one request for production covering the contents of this email. See RFP No. 1 to John Mark Suhy ("All DOCUMENTS and COMMUNICATIONS between YOU and any third party [] referencing, discussing, mentioning and/or concerning Neo4j, Neo4j software or this litigation."); see also RFP No. 12 ("All DOCUMENTS and COMMUNICATIONS where YOU marketed, suggested, offered for sale or solicited the sale of iGov's consulting, support and/or development services for ONgDB Enterprise software."). Consequently, we ask that Defendants immediately produce **all** documents and communications responsive to this request.

Sincerely,

HOPKINS & CARLEY
A Law Corporation

Jeffrey M. Ratinoff

JMR/dlh

¹ If Mr. Suhy had a factual basis to make such statements, then he should have produced this evidence supporting their truthfulness as part of discovery.

Re IPO: Not sure how the investing public could trust @neo4j or its management once they learn about the attempt to defraud their investors, their involvement in procurement fraud , which could lead to criminal charges, and the fact that one person caused ee to go closed source.

Adron,

It has been over a month since I sent the attached letter regarding your client's extra-judicial activities on Twitter. Due to your lack of a meaningful response to this letter and Mr. Suhy's most recent tweets over the holiday weekend (attached), we can only assume you are either unwilling or unable to control your client.

While Mr. Suhy may be entitled to fairly report on the parties' legal dispute based on public filings, he is not entitled to make false and defamatory statements regarding Neo4j and insinuate its confidential. Mr. Suhy's repeated tweets targeting Neo4j customers, and now its investors are highly inappropriate. As noted in my May 27th letter, he cannot engage in defamation as a means of self-help in both lawsuit and the marketplace. Indeed, there is no legitimate reason to dig up a tweet from November 2018 about Neo4j receiving funding and making false statements that Neo4j engaging in criminal fraud, which are directed at Neo4j's investors, other than to maliciously harm Neo4j's reputation and ability to receive future funding.

In addition, Mr. Suhy's repeated references to confidential information in his tweets suggests that he may be improperly using confidential materials that were provided to him by Neo4j subject to the confidentiality provision in the Neo4j Solution Partner Agreement. As you may recall Section 3 of that agreement restricts the use and disclosure of confidential information obtained under the terms thereof for a period of five (5) years from receipt, and the confidentiality obligations survived the termination per Section 7. The fact your office publicly filed the Neo4j Solution Partner Agreement with the Court that was marked confidential and Mr. Suhy now points Twitter users to his blog on iGov's website that quotes provisions therein in and of itself arguably constituted a violation of the confidentiality provision. Mr. Suhy's tweets further suggest that he is abusing the access he was granted to designated material under the Protective Order for purposes beyond this litigation.

It seems that our multiple attempts to informally resolve this ongoing issue has fallen on deaf ears. As a result, Neo4j will now need to seek appropriate relief via the courts.

Regards,
Jeff

No @neo4j it really isn't OK that you have called my cell phone multiple times to upsell me on your enterprise software just *because I downloaded a trial version* as your rep stated "within the last couple of years".

This is a no-no.

You can use #ONGDB (Open Native Graph Database) for free, no limits on causal cluster instances, cores, etc. It is a Neo4j form that adds the enterprise features Neo removed back into core.

ONGDB - Open Source Neo4j Enterprise Graph - The Graph Foundation
ONGDB is an open source fork of Neo4j Enterprise that is developed and released under the AGPLv3 License by The Graph Foundation.

Also, you may want to check out blog.igovsol.com. There is an upcoming trial which is going to expose much worse behavior by @neo4j inc. Once the info becomes public, I think it's going lead to criminal fraud charges and potential class action lawsuits against them.

I am guessing that opinion is going to change once you learn about their behavior. It was mostly hidden from the public. I am writing an article that is going to let the community see their true nature, something I have witnessed when my company was a trusted partner.

If your organization paid for a [@neo4j](#) enterprise license within the past 7 years after being told you could not use the free enterprise open source distribution for any reason - please send me a PM. I believe this deceptive behavior went beyond the us government.

It is possible you may be able to get your money back if there is a class action lawsuit related to this. I believe [@neo4j](#) inc is going to face procurement fraud charges because of this behavior in the US government.
